

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Korinek  
DOCKET NO.: 09-20891.001-R-1  
PARCEL NO.: 15-01-102-034-0000

The parties of record before the Property Tax Appeal Board are James Korinek, the appellant, by attorney Joel R. Monarch in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$9,455  
IMPR.: \$88,674  
TOTAL: \$98,129**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 3,739 square feet of living area. The dwelling is 68 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a one-car attached garage. The property has an 11,819 square foot site and is located in River Forest, River Forest Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of masonry or frame and masonry construction that ranged in size from 3,582 to 3,858 square feet of living area. The dwellings ranged in age from 72 to 83 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement, one or two fireplaces and 1.5 to 2.5-car garages. Two of the comparables have finished recreation rooms in the basement and two have central air conditioning. The comparables have improvement assessments ranging from \$77,873 to \$83,873 or from \$21.74 to \$22.00 per square foot of living area. The subject's improvement assessment is \$88,674 or \$23.72 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$81,531 or \$21.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties, one of which is also appellant's comparable 1. The suggested comparables are improved with two-story dwellings of masonry or frame and masonry construction that range in size from 3,444 to 3,788 square feet of living area. The dwellings range in age from 69 to 79 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full or partial basements and 1.5 or 2-car garages. Three of the comparables have finished recreation rooms in the basement. Three comparables have two fireplaces and two comparables have central air conditioning. These properties have improvement assessments ranging from \$77,557 to \$91,808 or from \$22.00 to \$25.70 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties for the Board's consideration. The Board gave diminished weight to appellant's comparable 4 due to age disparity when compared to the subject property. The Board finds appellant's comparables 1, 2 and 3 and board of review comparable 1, 2 and 4 are the most similar to the subject overall in location, size, style, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.74 and \$25.70 per square foot of living area. The subject's improvement assessment of \$23.72 per square foot of living area is within the range and supported by the assessments of the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
