

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bruce Bailey
DOCKET NO.: 09-21047.001-R-1
PARCEL NO.: 28-31-207-010-0000

The parties of record before the Property Tax Appeal Board are Bruce Bailey, the appellant, by attorney Julie Realmuto, of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 4,267
IMPR.: \$ 14,955
TOTAL: \$ 19,222**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 13,132 square foot parcel of land improved with a one and half-story, single-family dwelling frame construction. The dwelling is 78 years old. Features of the home include a full unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as single-story, single-family frame dwellings that range in age from 54 to 78 years old. The comparable dwellings range in size from 888 to 938 square feet of living area. Features include an unfinished basement for one property and air conditioning for one property. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$1.67 to \$12.41 per square foot of living area. In addition, the appellant's brief asserts the subject property contains 889 square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$19,222 and improvement assessment of \$14,955 was disclosed. The board of

review presented descriptions and assessment information on four comparable properties consisting of one and half-story, frame single-family dwellings that range in age from 67 to 78 years old. The dwellings range in size from 1,264 to 1,588 square feet of living area. Features include full unfinished basement, a two-car or three-car garage, air conditioning for three properties and a fireplace for two properties. These properties have improvement assessments ranging from \$11.93 to \$12.71 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

As to the subject property improvement size, the Board finds the appellant failed to submit any evidence to substantiate the subject property size at 889 square of living area. Therefore, the Board finds the subject property contains 1,382 square feet of living area. The subject's improvement assessment is \$14,955 or \$10.82 per square foot of living area, based on 1,382 square feet.

The Board finds the comparables submitted by the board of review were are similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$11.93 to \$12.71 per square foot of living area. The subject's improvement assessment of \$10.82 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
