

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Bippen
DOCKET NO.: 09-21611.001-R-1
PARCEL NO.: 14-19-318-025-0000

The parties of record before the Property Tax Appeal Board are Joseph Bippen, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,020
IMPR.: \$38,160
TOTAL: \$51,180

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with an 89-year old, one-story, masonry, single-family dwelling. It contains 954 square feet of living area and is situated on a 3,100 square foot lot. Features include one full bath, two bedrooms and a full unfinished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data, as well as colored photographs and a neighborhood map, for four suggested comparables. The properties are improved with a one-story, frame or frame and masonry, single-family dwelling, all of which include one or one and one-half baths and are located within one mile of the subject property. All suggested comparables have a partial or full, finished or unfinished basement. Suggested comparables #2, #3 and #4 include one or two-car garage area. The suggested comparables range: in age from 84 to 121 years; in size from 902 to 1,065 square feet of living area; and in

improvement assessment from \$29.15 to \$37.94 per square foot of living area. The subject's improvement assessment is \$40.00 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's assessment of \$51,180 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data relating to four suggested comparables located within the subject's same neighborhood code, one of which is located on the subject's block. The properties are improved with a one-story, masonry, single-family dwelling with one full bath and a full unfinished basement. They range: in age from 82 to 89 years; in size from 900 to 993 square feet of living area; and in improvement assessment from \$40.57 to \$45.63 per square foot of living area. Amenities for the properties include two to three bedrooms, one fireplace for suggested comparable #4, and a two-car garage for suggested comparables #2, #3 and #4.

In written rebuttal, the appellant clarified descriptive data for the board of review's suggested comparable #1 and included an updated photo as well as recent sales information for that property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board finds that comparables #1 and #3 submitted by the appellant as well as comparables #2 through #4 submitted by the board of review are most similar to the subject in exterior construction, age and/or amenities. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$29.15 to \$45.63 per square foot of living area. The subject's improvement assessment at \$40.00 per square foot is within the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
