

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steven Nayvelt  
DOCKET NO.: 09-22367.001-R-1  
PARCEL NO.: 10-10-415-044-0000

The parties of record before the Property Tax Appeal Board are Steven Nayvelt, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 5,073  
IMPR: \$ 24,562  
TOTAL: \$ 29,635**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of 6,765 square foot parcel of land improved with a one-story dwelling of masonry exterior construction and 1,288 square feet of living area. The dwelling is 49 years old. Features of the home include a full, unfinished basement, central air conditioning, and one and one-half baths.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story, masonry or frame and masonry dwellings that range in age from 50 to 55 years old. The comparable dwellings range in size from 1,273 to 1,566 square feet of living area. Features include one to two baths, and air conditioning. The appellant did not include any data concerning garage area for the comparables. The comparables have improvement assessments ranging from \$13.53 to \$16.71 per square foot of living area. The subject's improvement assessment is \$19.07 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story

masonry dwellings that range in age from 48 to 52 years. The dwellings range in size from 1,204 to 1,422 square feet of living area. Features include one to two baths and unfinished and partially finished basements, while two properties have air conditioning. These properties have improvement assessments ranging from \$19.94 to \$23.72 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In addition, the board of review's grid reflected that comparable #2 sold in November of 2007 for \$285,000. This sale reflects an improvement assessment of \$19.94.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #3 submitted by the appellant, and all the comparables submitted by the board of review, were most similar to the subject in improvement size and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$13.53 to \$23.72 per square foot of living area. The subject's improvement assessment of \$19.07 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
