

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Shawn & Anne Mansfield
DOCKET NO.: 09-22380.001-R-1
PARCEL NO.: 14-29-123-037-0000

The parties of record before the Property Tax Appeal Board are Shawn & Anne Mansfield, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,704
IMPR.: \$55,371
TOTAL: \$72,075

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1.5-story dwelling of frame construction containing 2,896 square feet of living area¹. The dwelling is 125 years old. Features of the home include a full basement finished with an apartment, a fireplace and a 2-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as 1.5 to 1.9-story, two-story and 3-story frame dwellings that are 121 or 126 years old. The comparable dwellings range in size from 2,719 to 3,040 square feet of living area. Three comparables have a garage ranging from 2-car to 3.5-car. Two comparables have a full basement of which one is finished with an apartment and one is finished with a recreation room. One comparable has central air conditioning and one comparable has a fireplace. The comparables have improvement assessments ranging from \$15.44 to \$17.65 per square

¹ The appellants indicated the subject property design as a 1.5 to 1.9-story, however, the property characteristic sheet describes the subject property design as a 1.5-story.

foot of living area. The subject's improvement assessment is \$19.12 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$72,075 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 1.5-story frame constructed dwellings that are 121 or 131 years old. The dwellings range in size from 1,989 to 2,648 square feet of living area. Each comparable has a full basement of which two are finished with an apartment and one is finished with a recreation room. Each comparable has a 2-car garage. One comparable has central air conditioning and a fireplace. These properties have improvement assessments ranging from \$19.12 to \$23.74 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

The Board finds appellant's comparables #1, #2 and #4 dissimilar in design and features when compared to the subject. The Board gave less weight to board of review's comparable #4 due to its size and dissimilar features. The Board finds comparable #3 submitted by the appellants and comparables #1, #2 and #3 submitted by the board of review were more similar to the subject in design and features. These comparables had improvement assessments that ranged from \$17.30 to \$22.45 per square foot of living area. The subject's improvement assessment of \$19.12 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly

establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellants disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellants have not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
