

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kyle Sever
DOCKET NO.: 09-24440.001-R-1
PARCEL NO.: 08-08-122-034-1114

The parties of record before the Property Tax Appeal Board are Kyle Sever, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,331
IMPR.: \$8,794
TOTAL: \$11,125

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a class 2-99 residential condominium unit located in Elk Grove Township, Illinois, Cook County. The subject property is a two-story, frame and masonry dwelling with two baths within the subject's building with 0.5139% of ownership. The appellant argued that the market value of the subject property is not accurately reflected in its assessed value.

In support of this overvaluation argument, the appellant submitted a copy of the real estate contract/addendum including disclosures, paid assessment letter and the settlement statement stating that the subject sold for \$125,000.00 on April 13, 2009. The second page of the settlement statement itemizes broker fees. In addition, the appellant's petition asserts the subject was on the market for 119 days, listed on the multiple listing service, and was not sold to related parties. Based on this evidence, the appellant requested the subject's assessment be reduced to reflect the subject's purchase price.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$15,118 was disclosed. This assessment reflects a market value of \$169,865 using the Illinois Department of Revenue's 2009 three-year median level of assessment for class 2 property of 8.90%. In support of the subject's assessment, the board of review also submitted a

memo from Matt Panush, Cook County Board of Review Analyst. The memorandum shows that 5.9599% of ownership, within the subject's building sold between 2007 and 2009 for a total of \$1,833,000. An allocation of four percent per unit for personal property was subtracted from the aggregate sales price then divided by the percentage of interest of units sold to arrive at a total market value for the building of \$29,525,411. The subject's percentage of ownership, 0.5140%, was then utilized to arrive at a value for the subject unit of \$151,760. The board also submitted a grid listing for each unit in the building: the property identification number, the percentage of ownership; the assessment; and sales data and prices of units sold between 2003 and 2010. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. When overvaluation is claimed, the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3d Dist. 2002; Winnbago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d (2d Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill. Admin. Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction in the subject's assessment is warranted.

The PTAB finds the best evidence of market value is the sale of the subject in April 2009 for \$125,000. The PTAB finds the Settlement Statement, line 703, shows a commission was paid to the broker at closing and that the property was listed on the open market for 119 days. This supports the arm's length nature of the sale. Therefore, the most weight was given to this evidence. The subject's assessment reflects a market value greater than this purchase price.

Based on this record, the PTAB finds that the subject property has a market value of \$125,000.00 for the 2009 assessment year. Since market value has been determined, the 2009 three-year median level of assessment for class 2 property as established by the Illinois Department of Revenue of 8.90% shall apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
