

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kinga Gawron
DOCKET NO.: 09-24637.001-R-1
PARCEL NO.: 03-24-202-055-1156

The parties of record before the Property Tax Appeal Board are Kinga Gawron, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,002
IMPR: \$6,118
TOTAL: \$7,120

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a class 2-99 residential condominium unit located in Wheeling Township, Cook County. The appellant argued that the market value of the subject property is not accurately reflected in its assessed value.

In support of this overvaluation argument, the appellant submitted a copy of a settlement statement dated October 30, 2009 indicating the subject was purchased by the appellant for \$80,000. The settlement statement indicates a broker was involved in this transaction and an owner's policy was issued in the amount of the purchase price. The appellant's petition also indicated that: this was a transfer between unrelated parties; the property was advertised for sale on the multiple listing service for over six months; and the seller's mortgage was not assumed. In further support of the market value argument, the appellant also included: a written brief; listing sheets for comparable condominium units; a listing sheet for the subject; and an aerial photograph showing the subject's proximity to Chicago Executive Airport, which the appellant claims devalues the subject property. Based on this evidence the appellant

requested the subject's assessment be reduced to reflect the subject's purchase price.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's total assessment of \$12,134 was disclosed. This assessment reflects a market value of \$136,337 using the Illinois Department of Revenue's 2009 three year median level of assessment for class 2 property of 8.90%. In support of the subject's assessment, the board of review also submitted a memo from Matt Panush, Cook County Board of Review Analyst. The memorandum shows that 43 units, or 12.0949% of ownership, within the subject's building sold between 2006 and 2008 for a total of \$5,913,900. An allocation of two percent per unit for personal property was subtracted from the aggregate sales price then divided by the percentage of interest of units sold to arrive at a total market value for the building of \$47,917,899. The subject's percentage of ownership, 0.3047%, was then utilized to arrive at a market value for the subject unit of \$146,005. The board also submitted a grid listing for each unit in the building indicating: the property identification number; the percentage of ownership; the assessment information; and sales dates and prices of units that sold between 2006 and 2008. In its data, the board of review acknowledged the sale of the subject unit in 2009 for \$80,000. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction is warranted.

The Board finds that the best and unrebutted evidence of market value was the recent purchase price of the subject property. The appellant submitted a settlement statement for the subject property showing: a purchase price of \$80,000 in October 2009; a paid broker's commission; and that an owner's policy was issued for the same amount as the purchase price. The appellant's petition further indicated the transfer of the subject involved non-related parties and the property was listed on the open market for at least a six month period. The subject's assessment reflects a market value greater than the purchase price as shown

on the settlement statement. The Board further finds that the county failed to proffer any evidence indicating either that this sale was not an arm's length transaction or that there were sales comparables located within the subject's area which rebutted the validity of the subject's sale price.

Based on this record the Property Tax Appeal Board finds that the subject property had a market value of \$80,000 for the 2009 assessment year. Since market value has been determined, the 2009 three year median level of assessment of 8.90% for class 2 property as established by the Illinois Department of Revenue shall apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
