

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joanna Mietka
DOCKET NO.: 09-24743.001-R-1
PARCEL NO.: 12-01-310-023-0000

The parties of record before the Property Tax Appeal Board are Joanna Mietka, the appellant, by attorney Christopher G. Walsh, Jr. of Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,351
IMPR.: \$20,149
TOTAL: \$26,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 1,895 square feet of living area. The dwelling is 68 years old and is located in Chicago, Jefferson Township, Cook County. The property is classified as a class 2-05 residential property under the Cook County Real Property Assessment Classification Ordinance. Features of the home include a full unfinished basement, central air conditioning and a 2-car garage.

The appellant contends overvaluation based on a recent sale of the subject property. The appellant's attorney submitted a brief in support of this argument. Counsel indicated the subject property was purchased in May 2009 for a price of \$265,000 or \$139.84 per square foot of living area, land included. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in May 2009 for a price of \$265,000. The transfer declaration indicated the subject was advertised for sale, and there was no indication the parties were related. When completing section IV of the residential appeal

form, the appellant indicated that the subject property sold in settlement of a foreclosure. In the brief, counsel argued the subject had a market value of \$265,000 and the assessment should be calculated by applying the 10% level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$26,500.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$35,992 was disclosed. The subject's assessment reflects a market value of \$404,405 using the 2009 three year average median level of assessments for class 2 property of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.50(c)(2)).

In support of the subject's assessment, the board of review submitted a grid analysis of four comparable properties consisting of two-story frame and masonry dwellings that are 65 or 67 years old. The dwellings range in size from 1,752 to 1,920 square feet of living area. Each comparable has central air conditioning and a 1-car to 3-car garage. Three comparables have full basements of which one is finished with a recreation room and one comparable has a partial unfinished basement. One comparable has a fireplace. These properties have improvement assessments ranging from \$15.71 to \$17.03 per square foot of living area.

Also attached to the board of review's data was a printout of 20 sales identified only by parcel number and entitled "Class 05 2+ story old style small residence within neighborhood 71440 of Township Jefferson." One sale related to the subject property which included the May 2009 sale for \$265,000. The remaining 19 properties sold between August 1992 and July 2010 for prices ranging from \$138,000 to \$395,000. No other descriptive data was submitted for purposes of analyzing these properties.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the

evidence in the record, the Board finds the appellant has met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the board of review's sale data does not sufficiently address the appellants' overvaluation argument. The Board finds the best evidence of market value in the record is the sale of the subject property in May 2009 for a price of \$265,000. The subject's total assessment reflects an estimated market value of \$404,405, which is greater than its purchase price. The Board finds the board of review provided no evidence to indicate that the subject's sale was not an arm's length transaction. Based on this record the Board finds the subject had a market value of \$265,000 as of the January 1, 2009 assessment date. Based on this evidence the Board finds a reduction to the subject's assessment equivalent to the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
