

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Traci Scheffers
DOCKET NO.: 09-24766.001-R-1
PARCEL NO.: 12-25-126-021-0000

The parties of record before the Property Tax Appeal Board are Traci Scheffers, the appellant, by attorney Christopher G. Walsh, Jr. of Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,048
IMPR.: \$11,952
TOTAL: \$15,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1.5-story dwelling of masonry construction containing 1,500 square feet of living area. The dwelling is 78 years old and is located in Elmwood Park, Leyden Township, Cook County. The property is classified as a class 2-03 residential property under the Cook County Real Property Assessment Classification Ordinance. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant contends overvaluation based on a recent sale of the subject property. The appellant's attorney submitted a brief in support of this argument. Counsel indicated the subject property was purchased in May 2009 for a price of \$150,000 or \$100.00 per square foot of living area, land included. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, Settlement Statement and affidavit disclosing the subject property was purchased in May 2009 for a price of \$150,000. The transfer declaration indicated the subject was advertised for sale, and there was no indication the parties were related. When

completing section IV of the residential appeal form, the appellant indicated that the subject property sold in settlement of a foreclosure. In the brief, counsel argued the subject had a market value of \$150,000 and the assessment should be calculated by applying the 10% level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$15,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$24,588 was disclosed. The subject's assessment reflects a market value of \$276,270 using the 2009 three year average median level of assessments for class 2 property of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.50(c)(2)).

In support of the subject's assessment, the board of review submitted a grid analysis of four equity comparables, one of which included sale data. The sold property was a 1.5-story masonry dwelling that was 79 years old. The home contains 1,665 square feet of living area with a full basement finished with a recreation room and a 1-car garage. The property sold in November 2006 for a price of \$312,000 or \$187.39 per square foot of living area, including land.

Also attached to the board of review's data was a printout of 20 sales identified only by parcel number and entitled "Class 03 medium size cottage/bungalow within neighborhood 20080 of Township Leyden." Two sales related to the subject property. The remaining 18 properties sold between September 1992 and August 2009 for prices ranging from \$117,000 to \$337,000. No other descriptive data was submitted for purposes of analyzing these properties.

Additionally attached to the board of review's data was a "Board of Review Analysis/Evidence Sheet" with no comparable sales. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the

assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The appellant submitted evidence that the subject property was purchased in May 2009 for \$150,000. The board of review offered four comparable properties, three of which were assessment equity comparables that do not address the appellant's market value complaint. The board of review's comparable #1 sold in November 2006 for \$312,000. The Board finds this sale is dated and not probative of fair market value as of the January 1, 2009 assessment date. Therefore the Board finds the evidence in the record supports a reduction in the subject's assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
