

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Denise & James Coakley
DOCKET NO.: 09-24845.001-R-1
PARCEL NO.: 13-03-314-016-0000

The parties of record before the Property Tax Appeal Board are Denise & James Coakley, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,936
IMPR.: \$45,683
TOTAL: \$53,619

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,086 square feet of living area. The dwelling was 55 years old. Features of the dwelling include a full unfinished basement, central air conditioning, a fireplace and a two-car detached garage. The property has a 4,960 square foot site and is located in Chicago, Jefferson Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings that ranged in size from 2,001 to 2,286 square feet of living area. Two of the comparables are of frame and masonry exterior construction; one comparable is of frame construction and one comparable is of masonry construction. The dwellings ranged in age from 51 to 61 years old. Each comparable has the same neighborhood code as the subject property. One comparable has a full basement and three comparables have a partial basement. All four of the comparables have a finished recreation room in the basement.

Three comparables have central air conditioning. Two comparables have a fireplace and one comparable has two fireplaces. Three comparables have a one-car garage. One comparable has a 2.5-car attached garage. The comparables have improvement assessments ranging from \$37,490 to \$44,209 or from \$17.64 to \$20.15 per square foot of living area. The subject's improvement assessment is \$45,683 or \$21.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$40,156 or \$19.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with two-story dwellings of masonry construction that range in size from 2,013 to 2,043 square feet of living area. The dwellings are 58 and 62 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement with one comparable having a finished recreation room in the basement. Two comparables have central air conditioning. All three comparables have a single fireplace and two have a one-car garage. One comparable has a 2.5-car garage. These properties have improvement assessments ranging from \$44,186 to \$44,624 or from \$21.63 to \$22.14 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the board of review comparables are the most similar to the subject in size, exterior construction and

features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.63 to \$22.14 per square foot of living area. The subject's improvement assessment of \$21.90 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
