

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Freson
DOCKET NO.: 09-24872.001-R-1
PARCEL NO.: 09-36-220-006-0000

The parties of record before the Property Tax Appeal Board are Robert Freson, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$6,608
IMPR.: \$30,182
TOTAL: \$36,790**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 1,920 square feet of living area. The dwelling is 83 years old. Features of the home include a full unfinished basement, a fireplace and a two-car detached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry dwellings that range in age from 86 to 116 years old. The comparable dwellings range in size from 1,934 to 2,095 square feet of living area. Features include full unfinished basements. Three of the comparables have central air conditioning and three have two-car garages. The comparables have improvement assessments ranging from \$29,660 to \$32,926 or from \$14.98 to \$16.09 per square foot of living area. The subject's improvement assessment is \$18.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

masonry or frame and masonry dwellings that range in age from 63 to 73 years old. The dwellings range in size from 1,607 to 1,849 square feet of living area. Features include central air conditioning and basements. One comparable has recreation room finish in the basement. Three of the comparables have garages and three have a single fireplace. One comparable has two fireplaces. These properties have improvement assessments ranging from \$29,939 to \$36,898 or from \$17.81 to \$19.96 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

A total of 8 comparable properties were submitted by both parties for the Property Tax Appeal Board's consideration. The improvement assessments ranged from \$14.98 to \$19.96 per square foot of living area. The Board finds the comparables submitted by the appellant were most similar to the subject in size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$14.98 to \$16.09 per square foot of living area. The subject's improvement assessment of \$18.10 per square foot of living area is above the range established by the most similar comparables. The Board gives less weight to the board of review's comparables. All four of the comparables were superior to the subject in age and size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
