

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Servando Saenz
DOCKET NO.: 09-25191.001-R-1
PARCEL NO.: 12-28-404-001-0000

The parties of record before the Property Tax Appeal Board are Servando Saenz, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,123
IMPR.: \$16,633
TOTAL: \$19,756

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,679 square foot parcel of land improved with a 64 year old, one and a half story, frame, single-family dwelling, with two baths, air conditioning, and a full unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

The appellant's evidence lists the subject as containing a 720 square feet of living area whereas the board of review's evidence lists the subject at 1,170 square feet of living area and one and a one half story.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as one or one and a half-story, frame, single-family dwellings with one bath, air conditioning for two properties, and partial or unfinished basements. The properties are 56 to 65 years old with 821 to 1,182 square feet of living area and have improvement

assessments from \$12.85 to \$17.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$16,633 or \$14.22 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood and two are within a quarter mile of the subject. The properties are described as one and a half-story, frame, single-family dwellings with one and a half or two baths, partial or full unfinished basements, air conditioning for three properties, and two fireplaces. The properties are 57 to 64 years old with 1,100 to 1,308 square feet of living area and have improvement assessments of \$15.99 to \$19.15 per square foot of living area. In addition, the board of review also submitted the property characteristic printout evidencing the property's square footage as 1,170 square feet and a photograph of the property dwelling. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

As to the subject's square footage, the PTAB finds the appellant failed to submit any evidence to show that the county has incorrectly described the subject's square footage. Therefore the PTAB finds the subject contains 1,170 square feet of living area. This square footage reflects an assessment for the improvement of \$19,756 or \$14.22 per square foot.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparable #1 and the board of review's comparables #1, #3, and #4 most similar to the subject in size, design, construction and age. The properties are described as one and a half-story, frame, single-family dwellings. The properties are 60 to 65 years old with 1,100 to 1,198 square feet of living area and have improvement assessments from \$12.85 to \$19.15 per square foot of living area. In comparison, the subject's improvement assessment of \$14.22 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and

the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
