

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sean Cullinan
DOCKET NO.: 09-26152.001-R-1
PARCEL NO.: 13-09-406-020-0000

The parties of record before the Property Tax Appeal Board are Sean Cullinan, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,048
IMPR.: \$ 20,652
TOTAL: \$ 26,700

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,780 square foot parcel improved with an 87-year-old, two-story, single-family dwelling of stucco construction containing 1,886 square feet of living area and located in Jefferson Township, Cook County. Features of the residence include two full bathrooms, a full-unfinished basement and a two-car detached garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming the subject's market value is not accurately reflected in its assessment. In support of this claim, the appellant submitted a residential appraisal summary report prepared by Aleksandr Smagorinskiy, a certified residential real estate appraiser in Northbrook, Illinois. The appraisal disclosed that Smagorinskiy inspected the interior and exterior of the subject property. The appraiser utilized the sales comparison approach to estimate a market value of \$300,000 for the subject as of January 1, 2009.

In the sales comparison approach to value, the appraiser analyzed the sales of six properties located within a distance of 0.63

miles from the subject. The comparables consist of two-story, single-family dwellings of frame construction ranging from 87 to 137 years in age. The lots range in size from 3,150 to 4,125 square feet and the improvements range in size from 1,620 to 2,329 square feet of living area. The comparables sold between January 2008 and September 2009 for prices ranging from \$272,000 to \$332,000 or from \$135.25 to \$192.58 per square foot of living area, including land. After making adjustments, the appraiser concluded a value for the subject via the sales comparison approach of \$300,000 as of January 1, 2009.

The appraisal report disclosed that the subject was considered to be in overall average condition reflecting average comparative maintenance with an average degree of kitchen/bath upgrades. Based on the evidence submitted, the appellant requested an assessment reflective of a fair market value for the subject of \$300,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$34,700 was disclosed. The assessment reflects a total market value of \$389,888 for the subject, when the 2009 Illinois Department of Revenue's three-year median level of assessments of 8.90% for Class 2 property, such as the subject, is applied. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,660 to 2,090 square feet of living area and range in age from 85 to 101 years old. The comparables contain one and one-half or two full bathrooms, a full-finished or unfinished basement and a one-car or two-car garage. Two comparables have central air-conditioning. The improvement assessments range from \$16.27 to \$18.49 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted a one-page letter arguing that the appellant's appraisal report is the best evidence of market value in the record.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist, 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a

recent arms-length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. (86 Ill. Adm. Code § 1910.65(c)). Having considered the evidence, the Board finds the appellant has satisfied this burden and a reduction is warranted.

The Property Tax Appeal Board finds the best evidence of market value in the record is the residential appraisal summary report provided by the appellant. In addition, the Board finds that the board of review did not present any evidence or argument refuting the appellant's appraisal report. Moreover, the board of review's evidence does not address the appellant's market value argument. Thus, the Board finds the subject had a fair market value of \$300,000 as of January 1, 2009. Since fair market value has been established, the 2009 Illinois Department of Revenue's three-year median level of assessments of 8.90% for Class 2 property shall apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
