

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: F. Cianciolo
DOCKET NO.: 09-26964.001-R-1
PARCEL NO.: 15-24-211-006-0000

The parties of record before the Property Tax Appeal Board are F. Cianciolo, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,484
IMPR. \$22,537
TOTAL: \$24,021

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,125 square foot parcel of land improved with a 100 year old, frame, and single-family dwelling containing two baths, and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

The appellant's evidence lists the subject as containing 839 square feet of living area and one-story whereas the board of review's evidence lists the subject at 1,641 square feet of living area and a two-story.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as one-story, frame, single-family dwellings with one or one and a half baths, and two properties with a full basement. The properties range: in age from 83 to 110 years; in size from 816 to 966 square feet of living area; and in improvement assessments from

\$15.78 to \$21.27 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$22,537 or \$13.73 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within a quarter mile of the subject. The properties are described as two-story, frame, single-family dwellings with two to two and a half baths, and a finished basement for one property. The properties range: in age from 84 to 100 years; in size from 1,260 to 1,800 square feet of living area; and in improvement assessments from \$16.80 to \$20.98 per square foot of living area. In addition, the board of review also submitted the property classification printout evidencing the property's square footage as 1,641 square feet and a photograph of the property evidencing the property as a two-story dwelling. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

As to the subject's square footage and number of stories, the PTAB finds the appellant failed to submit any evidence to show that the county has incorrectly described the subject's square footage and number of stories. Therefore the PTAB finds the subject contains 1,641 square feet of living area and two stories. This square footage reflects an assessment for the improvement of \$22,537 or \$13.73 per square foot.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in size, design, location, construction and age. The properties are described as two-story, frame, and single-family dwellings. The properties range: in age from 84 to 100 years; in size from 1,260 to 1,800 square feet of living area; and in improvement assessments from \$17.06 to \$20.98 per square foot of living area. In comparison, the subject's improvement assessment of \$13.73 per square foot of living area is below the range of these comparables.

Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
