

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Stuckey
DOCKET NO.: 09-27120.001-R-1
PARCEL NO.: 16-01-428-045-1004

The parties of record before the Property Tax Appeal Board are David Stuckey, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 1,292
IMPR.: \$ 12,058
TOTAL: \$ 13,350

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a residential condominium unit located in West Chicago, Cook County. The condo is 98 years old and is located in a building with a total of six units. It is improved with masonry exterior construction. The appellant argued that the market value of the subject property is not accurately reflected in its assessed value.

In support of this overvaluation argument the appellant submitted a copy of a settlement statement dated July 6, 2009 indicating the subject was purchased by the appellant for \$150,000. In addition, page two of the appellant's petition indicates the subject property was purchased in July of 2009 for \$350,000. Moreover, the appellant also submitted the Multiple Listing Sheet reflecting subject's sale as well as an affidavit stating the subject sold in July of 2009. Based on this evidence the appellant requested the subject's assessment be reduced to reflect the subject's purchase price.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$18,751 was

disclosed. This assessment reflects a market value of \$210,685 using the Illinois Department of Revenue's 2009 three year median level of assessment for class 2 property of 8.90%.

In support of the subject's assessment, the board of review also submitted a memo from Matt Panush, Cook County Board of Review Analyst. The memorandum shows that two units, or 32.87% of ownership, within the subject's building sold between June and August of 2008 for a total of \$420,000. An allocation of two percent per unit for personal property was subtracted from the aggregate sales price then divided by the percentage of interest of units sold to arrive at a total market value for the building of \$4,252,205. The subject's percentage of ownership, 15.27%, was then utilized to arrive at a value for the subject unit of \$191,211. The board also submitted a grid listing for each unit in the building: the property identification number; the percentage of ownership; the assessment; and sales dates and prices of units that sold in 2008. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB finds that the evidence supports a reduction is warranted.

The appellant in this appeal submitted a settlement statement and supporting documentation for the subject property showing a purchase price of \$150,000 in July 2009. The appellant's petition further indicates the subject was advertised for sale for six months by a realtor, and a broker commission was paid. The subject's assessment reflects a market value greater than the purchase price as shown on the settlement statement.

Based on this record the Property Tax Appeal Board finds that the subject property had a market value of \$150,000 for the 2009 assessment year. Since market value has been determined, the three year median level of assessment for class 2 property as established by the Illinois Department of Revenue of 8.9% for tax year 2009 shall apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
