

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Gardner
DOCKET NO.: 09-28404.001-R-1
PARCEL NO.: 05-17-305-003-0000

The parties of record before the Property Tax Appeal Board are Charles Gardner, the appellant(s), by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,553
IMPR: \$119,339
TOTAL: \$145,892

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,550 square foot parcel of land improved with a 116 year old, two-story, frame, single-family dwelling, with 3,942 square feet of living area, three baths, a fireplace and a partial unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, stucco, frame, masonry, or frame and masonry single-family dwellings with two to three full and two half baths, air conditioning for two properties, one or two fireplaces, and full or partial basements. The properties are 68 to 117 years old with 3,675 to 4,163 square feet of living area and have improvement assessments ranging from \$24.48 to \$28.78 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$119,339 or \$30.27 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood and one within a quarter mile of the subject. The properties are described as two-story, frame, single-family dwellings with two to two full and two half baths, partial or full basements, air conditioning for three properties, and one or two fireplaces. The properties are 96 to 119 years old with 3,610 to 3,991 square feet of living area and have improvement assessments of \$29.19 to \$33.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparable #2 and the board of review's comparables #1, #3, and #4 most similar to the subject in size, design, construction and age. The properties are described as two-story, frame, and single-family dwellings. The properties are 96 to 119 years old with 3,610 to 3,909 square feet of living area and have improvement assessments from \$25.14 to \$33.80 per square foot of living area. In comparison, the subject's improvement assessment of \$30.27 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
