

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Chorath
DOCKET NO.: 09-28409.001-R-1
PARCEL NO.: 15-16-210-009-0000

The parties of record before the Property Tax Appeal Board are Thomas Chorath, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,871
IMPR: \$2,129
TOTAL: \$4,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction. The dwelling is approximately 55 years old and contains 914 square feet of living area. Features of the home include a full unfinished basement and a two-car garage. The subject property has a 4,158 square foot site and is located in Bellwood, Proviso Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on January 4, 2010 for a price of \$40,000 or \$43.76 per square foot of living area, land included. The appellant completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller, Wells Fargo Bank; that the subject's sale was not a transfer between related parties; that a realtor handled the transaction; that the property was advertised for sale using the multiple listing service (MLS); and that the subject property was sold in settlement of a foreclosure. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer

Declaration, PTAX-203, disclosing the subject property was purchased in January 2010 for a price of \$40,000. On the transfer declaration, question #7 ("Was the property advertised for sale?") was marked "YES". The appellant also produced an affidavit, wherein the appellant stated that he had used the services of a real estate broker. The appellant also submitted a copy of the MLS listing sheet for the subject property. In a letter that accompanied the appeal, counsel stated the subject had a market value of \$40,000 and the assessment should be calculated by applying the 10% ordinance level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$4,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$15,682 was disclosed. The subject's assessment reflects a market value of \$176,202 or \$192.78 per square foot of living area, land included, using the 2009 three year average median level of assessments for class 2 property in Cook County of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four equity comparables, one of which was a sale. Comparable #1 sold in September 2006 for \$206,000 or \$219.85 per square foot of living area, land included. This comparable is improved with a one-story dwelling of masonry construction that is located in the same block as the subject. The dwelling is 54 years old and has 937 square feet of living area, a full unfinished basement, and a two-car garage. The board of review also submitted a two-page list of forty properties that sold from April 1992 to September 2009 for prices ranging from \$51,816 to \$250,000. Descriptive evidence for these sale properties was not provided. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business

and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so to do. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property on January 4, 2010 for a price of \$40,000. The appellant revealed that the subject's sale had some of the elements of an arm's length transaction. The evidence disclosed that the subject's sale was not a transfer between related parties; that a realtor handled the sale; and that the property was exposed to the open market when it was advertised for sale using the multiple listing service. On the transfer declaration, question #7 ("Was the property advertised for sale?") was marked "YES". The subject property has an assessment of \$15,682 that reflects a market value of \$176,202. The Board finds the subject's purchase price is less than the market value reflected by the assessment.

The Board finds that the board of review did not present any evidence to challenge the arm's length nature of the transaction and was not able to refute the appellant's overvaluation argument. The board of review presented four equity comparables and a sale price for one of these comparables. However, this sale occurred in September 2006 and was not as proximate in time to the January 1, 2009 assessment date as the sale of the subject in January 2010. Consequently, the Board gave little weight to this evidence. The board of review also provided a list of forty sale properties but no descriptive data for these

properties was given. As a result, no weight was given to this evidence.

Based on this record the Board finds the subject property had a market value of \$40,000 as of January 1, 2009 and a reduction commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
