

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Karen Asin
DOCKET NO.: 09-28415.001-R-1
PARCEL NO.: 04-09-214-010-0000

The parties of record before the Property Tax Appeal Board are Karen Asin, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$13,040
IMPR.: \$66,594
TOTAL: \$79,634**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 48 years old and contains 3,167 square feet of living area. Features of the home include a full finished basement, central air conditioning, a fireplace, and a two and one-half car garage. The subject property is located in Northbrook, Northfield Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and one of the comparables is located three blocks from the subject property. The comparable dwellings are from seven to fifty-nine years old and contain from 2,988 to 3,130 square feet of living area. Two comparables have unfinished basements, either full or partial, and two comparables have finished basements, either full or partial. Each comparable has a garage, central air conditioning, and one or two fireplaces. The comparables have improvement assessments ranging from \$53,310 to \$60,006 or from \$17.54 to \$19.21 per square foot of living area. The subject's improvement assessment is \$66,594 or \$21.03 per square foot of living area. Based on this evidence, the

appellant requested that the subject's improvement assessment be reduced to \$59,128 or \$18.67 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$79,634 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties consisting of two-story dwellings of frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and one of the comparables is located one-quarter mile from the subject property. The dwellings are from 46 to 54 years old and contain from 2,498 to 3,269 square feet of living area. Each comparable has a garage, one or two fireplaces, and a full basement, two of which are finished. Three comparables have central air conditioning. These properties have improvement assessments ranging from \$60,458 to \$70,073 or from \$21.13 to \$24.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparable #4 was considerably newer than the subject and received reduced weight in the Board's analysis. The board of review comparables #1 and #3 were significantly smaller than the subject and also received reduced weight. The Board finds the appellant's comparables #1 through #3 and the board of review comparables #2 and #4 were very similar to the subject in size, design, age, and foundation. Five of the comparables had frame and masonry exterior construction like the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$53,310 to \$70,073 or from \$17.54 to \$21.44 per square foot of living area. The subject's improvement assessment of \$66,594 or \$21.03 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
