

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Rose
DOCKET NO.: 09-28425.001-R-1
PARCEL NO.: 04-17-411-014-0000

The parties of record before the Property Tax Appeal Board are Robert Rose, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 8,122
IMPR.: \$43,498
TOTAL: \$51,620**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 35 years old and contains 3,092 square feet of living area. Features of the home include a partial unfinished basement, central air conditioning, a fireplace, and a two-car garage. The subject property is located in Northbrook, Northfield Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on October 22, 2007, for a price of \$580,000 or \$187.58 per square foot of living area, land included. The appellant completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller and that the subject's sale was not a transfer between related parties. The appellant stated "UNKNOWN" with respect to answering the question "Sold by" and did not know if the property was advertised for sale and for how long. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in October 2007 for a price of \$580,000. On the transfer declaration, question #7 ("Was the property advertised for sale or sold using a real estate agent?") was marked "YES". In a letter that accompanied the appeal, counsel

stated the subject had a market value of \$580,000 and the assessment should be calculated by applying the 10% median level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$58,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$60,995 was disclosed. The subject's assessment reflects a market value of \$685,337 or \$221.65 per square foot of living area, land included, using the 2009 three year average median level of assessments for class 2 property in Cook County of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four equity comparables, one of which was a sale. Comparable #2 sold in June 2007 for \$713,000 or for \$241.86 per square foot of living area. This comparable has a two-story dwelling of frame and masonry construction. The dwelling is 36 years old and has 2,948 square feet of living area with a partial unfinished basement, central air conditioning, a fireplace, and a two-car garage. On the grid analysis, the board of review made reference to the October 2007 sale of the subject property for a price of \$580,000. The board of review also submitted a list of twenty properties that sold from 1990 to 2010 for prices ranging from \$340,000 to \$647,500. This list included a reference to the sale of the subject property. Descriptive evidence for the other sale properties was not provided. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of

Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property on October 22, 2007, for a price of \$580,000. The appellant revealed that the subject's sale was not a transfer between related parties. On the transfer declaration, question #7 ("Was the property advertised for sale or sold using a real estate agent?") was marked "YES". Additionally, the board of review's evidence made reference to the October 2007 sale of the subject property for a price of \$580,000. The subject property has an assessment of \$60,995 that reflects a market value of \$685,337. The Board finds the subject's purchase price is less than the market value reflected by the assessment.

The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. Although the board of review submitted a sale price for one of its comparables, this sale occurred in June 2007 which was not as proximate to the January 1, 2009 assessment date as the October 2007 sale of the subject property. The Board also gives no weight to the board of review's listing of sale properties. These sales lacked the descriptive evidence that would have helped to determine how similar they were to the subject property.

Based on this record, the Board finds the subject property had a market value of \$580,000 as of January 1, 2009. Since market value has been determined the 2009 three year average median level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 8.90% shall apply. (86 Ill.Admin.Code §1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
