

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Loeber
DOCKET NO.: 09-28455.001-R-1
PARCEL NO.: 02-34-200-078-0000

The parties of record before the Property Tax Appeal Board are George Loeber, the appellant, by attorney John P. Fitzgerald, of Fitzgerald Law Group, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 1,248
IMPR.: \$ 0
TOTAL: \$ 1,248

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 24,960 square feet of land. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's land as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment information for four properties suggested as comparable to the subject. However, no descriptive information was included for these properties. The comparables have an improvement assessment of \$0.05 per square foot of land. Based on this evidence, the appellant requested a reduction in the subject's land assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's land assessment of \$12,480 was disclosed. The board of review failed to provide any evidence addressing the equity argument. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has

jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has met this burden.

The Board finds that all of the comparables submitted by the appellant were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had an improvement assessment of \$0.05 per square foot of living area. The subject's improvement assessment of \$0.00 per square foot of living area is below the range established by the most similar comparables. Therefore, after considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds that the subject's improvement assessment is not equitable, and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
