

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Campitelli
DOCKET NO.: 09-28479.001-R-1
PARCEL NO.: 05-21-118-015-0000

The parties of record before the Property Tax Appeal Board are Richard Campitelli, the appellant, by attorney David C. Dunkin of Arnstein & Lehr in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,330
IMPR.: \$106,170
TOTAL: \$127,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco construction with 4,366 square feet of living area. The dwelling is approximately 15 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has an 11,688 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on October 14, 2009 for a price of \$1,275,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$188,548. The subject's assessment reflects a market value of \$2,118,517 or \$485.23 per square foot of living area, land included, when using the 2009 three year average median level of assessments for class 2 property of 8.9% under the Cook County Real Property Assessment Classification Ordinance as determined by the Illinois Department of Revenue. In support of its contention of the correct assessment, the board of review submitted information with its "Notes on Appeal" on four comparable properties, one of which was a sale. The board of review also submitted information with its "Board of Review Analysis/Evidence Sheet" on six additional comparable properties, one of which was a sale.

In rebuttal, the appellant's attorney stated that the board of review had submitted equity evidence, which did not address the appellant's market value argument.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in October 2009 for a price of \$1,275,000. The appellant provided evidence demonstrating the sale had many of the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property had been advertised on the open market with the Multiple Listing

Service and it had been on the market for approximately 120 days. In further support of the transaction, the appellant submitted copies of the sales contract, the settlement statement, the warranty deed, and the MLS listing sheet. The Board finds the purchase price is below the market value reflected by the assessment.

The Board finds that the board of review did not present any evidence to challenge the arm's length nature of the transaction and was not able to refute the appellants' overvaluation argument. With its "Notes on Appeal," the board of review presented four equity comparables and a sale price for one of these comparables. This sale occurred in April 2006 and was not as proximate in time to the January 1, 2009 assessment date as the October 2009 sale of the subject property. With its "Board of Review Analysis/Evidence Sheet," the board of review presented six additional properties and a sale price for one of these comparables. However, this comparable was significantly newer and had less living area than the subject dwelling. Consequently, the Board gave little weight to this evidence.

Based on this record, the Board finds the subject property had a market value of \$1,275,000 as of January 1, 2009. A reduction in the subject's assessment commensurate with the appellants' request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
