

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bradley Greenberg
DOCKET NO.: 09-28552.001-R-1
PARCEL NO.: 04-17-300-120-0000

The parties of record before the Property Tax Appeal Board are Bradley Greenberg, the appellant, by attorney Christopher G. Walsh, Jr. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,070
IMPR.: \$47,430
TOTAL: \$59,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,827 square feet of living area. The dwelling is 32 years old and is located in Northbrook, Northfield Township, Cook County¹. The property is classified as a class 2-78 residential property under the Cook County Real Property Assessment Classification Ordinance. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant contends overvaluation based on a recent sale of the subject property. The appellant's attorney submitted a brief in support of this argument. Counsel indicated the subject property was purchased in January 2010 for a price of \$595,000 or \$210.47 per square foot of living area, land included. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in January 2010 for a price of

¹ The appellants indicated the subject property as 35 years old, however, the property characteristic sheet describes the subject property as 32 years old.

\$595,000. The transfer declaration indicated the subject was advertised for sale and the appellant indicated the parties to the transaction were not related. In the brief, counsel argued the subject had a market value of \$595,000 and the assessment should be calculated by applying the 10% level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$59,500.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$70,504 was disclosed. The subject's assessment reflects a market value of \$792,180 using the 2009 three year average median level of assessments for class 2 property of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.50(c)(2)).

In support of the subject's assessment, the board of review submitted a grid analysis of three comparable properties with copies of property characteristic sheets of the subject and comparables. The grid analysis provided assessment data for the subject and three comparables. This analysis did not address the appellant's overvaluation argument.

Also attached to the board of review's data was a one-page printout of 20 sales identified only by parcel number and entitled "Class 78 2+ story modern size res within neighborhood 25051 of Township Northfield." The list included a previous sale of the subject property that occurred in 2001. The properties sold between December 1991 and July 2005 for prices ranging from \$68,750 to \$669,000. No other descriptive data was submitted for purposes of analyzing these properties.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds the appellant has met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property in December 2010 for a price of \$595,000. The subject's total assessment reflects an estimated market value of \$792,180, which is greater than its purchase price. The Board finds the board of review provided no evidence to indicate that the subject's sale was not an arm's length transaction. The subject property was advertised for sale and there was no indication the parties were related. Based on this record the Board finds the subject had a market value of \$595,000 as of the January 1, 2009 assessment date. Based on this record the Board finds a reduction to the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
