

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Cascino
DOCKET NO.: 09-29926.001-R-1
PARCEL NO.: 05-07-107-009-0000

The parties of record before the Property Tax Appeal Board are Mary Cascino, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$11,088
IMPR.: \$82,943
TOTAL: \$94,031**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,753 square feet of living area. The dwelling is 68 years old¹. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 75 to 87 years old. The comparable dwellings range in size from 2,938 to 3,026 square feet of living area. Two comparables have full unfinished basements and two comparables have a partial basement of which one is finished with a recreation room. Three comparables have one or two fireplaces and three comparables have a 1-car or 2-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$17.46 to \$24.96 per square foot of living area. The subject's improvement assessment is \$30.13 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The appellant indicated the subject property was 71 years old, however, the property characteristic sheet describes the subject as 68 years old.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$94,031 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame, masonry or frame and masonry dwellings that range in age from 65 to 89 years old. The dwellings range in size from 2,400 to 3,090 square feet of living area. Each comparable has a full unfinished basement and a 2-car garage. Three comparables have one or two fireplaces and one comparable has central air conditioning. These properties have improvement assessments ranging from \$30.13 to \$31.42 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds appellant's comparable #3 and #4 has dissimilar basement features when compared to the subject. The Board gave less weight to board of review's comparables #3 and #4 due to their exterior construction when compared to the subject. The Board finds comparables #1 and #2 submitted by the appellant and comparables #1 and #2 submitted by the board of review were more similar to the subject in size, exterior construction, features and/or age. These comparables had improvement assessments that ranged from \$17.46 to \$31.42 per square foot of living area. The subject's improvement assessment of \$30.13 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
