

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emanuel Cerrone
DOCKET NO.: 09-29927.001-R-1
PARCEL NO.: 05-32-103-040-0000

The parties of record before the Property Tax Appeal Board are Emanuel Cerrone, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,400
IMPR.: \$67,697
TOTAL: \$76,097

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,992 square feet of living area. The dwelling is 42 years old¹. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 7 to 52 years old. The comparable dwellings range in size from 2,813 to 3,085 square feet of living area. Each comparable has central air conditioning and a 2-car or 2.5-car garage. Three comparables have a full basement finished with a recreation room and one comparable has a partial basement finished with a recreation room. Three comparables have a fireplace. The comparables have improvement assessments ranging from \$13.26 to \$20.76 per square foot of living area. The subject's improvement assessment is \$22.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The appellant indicated the subject property was 45 years old, however, the property characteristic sheet describes the subject property as 42 years old.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$76,097 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from 39 to 48 years old. The dwellings range in size from 2,474 to 3,014 square feet of living area. Each comparable has central air conditioning, a fireplace and a 2-car garage. Three comparables have a partial basement of which two are finished with a recreation room. These properties have improvement assessments ranging from \$23.72 to \$25.70 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds board of review's comparable #3 dissimilar to the subject due to basement area and quality of construction. The Board gave less weight to appellant's comparables #1, #2 and #3 due to dissimilar exterior construction. The Board finds comparable #4 submitted by the appellant and comparables #1, #2 and #4 submitted by the board of review were more similar to the subject in exterior construction, features and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.76 to \$25.58 per square foot of living area. The subject's improvement assessment of \$22.63 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
