

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark & Mary Harris
DOCKET NO.: 09-29934.001-R-1
PARCEL NO.: 05-20-402-025-0000

The parties of record before the Property Tax Appeal Board are Mark & Mary Harris, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$38,288
IMPR: \$172,724
TOTAL: \$211,012**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of stucco construction containing 5,274 square feet of living area. The dwelling is 1 year old¹. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as two-story stucco, masonry or frame and masonry dwellings that range in age from 80 to 95 years old. The comparable dwellings range in size from 5,051 to 5,794 square feet of living area. Two comparables have a partial basement of which one is finished with a recreation room and one comparable has a full basement finished with a recreation room. Each comparable has a garage ranging from 2-car to 3-car and one or three fireplaces. Two comparables have central air conditioning. The comparables have improvement assessments of \$30.88 or \$31.71 per square foot of living area. The subject's improvement assessment is \$32.75 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

¹ The appellants indicated the subject property was 88 years old, however, the property characteristic sheet describes the subject property as 1 year old.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$211,012 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame or masonry dwellings that range in age from 69 to 87 years old. The dwellings range in size from 4,114 to 5,216 square feet of living area. Two comparables have a full basement of which one is finished with a recreation room and two comparables have a partial basement of which one is finished with a recreation room. Each comparable has one or two fireplaces. Three comparables have central air conditioning and three comparables have a 1-car or 2-car garage. These properties have improvement assessments ranging from \$34.10 to \$37.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

The Board finds board of review's comparable #3 to be dissimilar in size when compared to the subject. The Board finds the comparables submitted by the appellants and comparables #1, #2 and #4 submitted by the board of review were more similar to the subject in location, size and features. These comparables had improvement assessments that ranged from \$30.88 to \$35.48 per square foot of living area. The subject's improvement assessment of \$32.75 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
