

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Liang Chen
DOCKET NO.: 09-29953.001-R-1
PARCEL NO.: 07-28-203-020-0000

The parties of record before the Property Tax Appeal Board are Liang Chen, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,025
IMPR.: \$ 19,827
TOTAL: \$ 23,852

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a one-story, single-family dwelling with 1,186 square feet of living area. The subject has frame exterior construction, a partial finished basement, central air conditioning, a fireplace, and a two-car attached garage. The dwelling is 38 years old and is located in Schaumburg, Schaumburg Township, Cook County. The property is classified as a class 2-03 residential property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation based on a recent sale of the subject property. The appellant's attorney submitted a brief in support of this argument. Counsel indicated the subject property was purchased in April 2009 for a price of \$268,000 or \$225.97 per square foot of living area, land included. To further document the sale, the appellant submitted a copy of the settlement statement as well as the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in April 2009 for a price of \$268,000. The transfer declaration indicated the subject was advertised for sale, and there was no indication the parties were related. When completing section IV of the residential appeal form, the appellant indicated that the subject property sold in settlement of a foreclosure. In the brief, counsel argued the subject had a market value of \$268,000 and the assessment should be calculated

by applying the 10% median level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$26,800.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$33,900 was disclosed. The subject's assessment reflects a market value of \$380,899 using the 2009 three year average median level of assessments for class 2 property of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.59(c)(2)).

The board of review submitted no market value evidence. Instead, the board of review provided information on four comparable properties to demonstrate the subject was being equitably assessed. The comparables were improved with one-story, frame or frame and masonry dwellings that range in age from 34 to 38 years old. The comparable properties have the same assigned neighborhood and classification codes as the subject property. The dwellings range in size from 1,140 to 1,186 square feet of living area. These comparables had improvement assessments ranging from \$20,814 to \$25,923 or from \$18.35 to \$21.86 per square foot of living area. The subject has an improvement assessment of \$29,875 or \$25.19 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). After an analysis of the evidence in the record, the Board finds the appellant has met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the sale of the subject property in April 2009 for a price of \$268,000. The subject's total assessment reflects an estimated market value of \$380,899, which is greater than its purchase price. The Board finds the board of review submitted equity

comparables but did not address or refute the appellant's market value argument. In fact, these equity comparables do not support the board of review's assessment of the subject property. Moreover, the board of review provided no evidence to indicate that the subject's sale was not an arm's length transaction. The subject property was advertised for sale, and there was no indication the parties were related. Based on this record the Board finds the subject had a market value of \$268,000 as of the January 1, 2009 assessment date. Since fair market value has been established, the 2009 three-year median level of assessment for class 2 property in Cook County of 8.90% as determined by the Illinois Department of Revenue shall apply. (See 86 Ill.Admin.Code 1910.59(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
