

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sonia Weiner
DOCKET NO.: 09-30600.001-R-1
PARCEL NO.: 04-06-406-035-0000

The parties of record before the Property Tax Appeal Board are Sonia Weiner, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,343
IMPR.: \$39,881
TOTAL: \$43,224

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,913 square feet of living area. The dwelling is 33 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 1.5-story or two-story frame and masonry dwellings that are 20 or 33 years old. The comparable dwellings have 2,172 or 2,320 square feet of living area. Each comparable has central air conditioning and a fireplace. Two comparables have unfinished basements. The appellant did not include any data concerning garages for the comparables, however, photographs depict a garage for three comparables. The comparables have improvement assessments ranging from \$10.96 to \$15.14 per square foot of living area. The subject's improvement assessment is \$20.85 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$43,224 was disclosed. The board of review presented descriptions and

assessment information on four comparable properties consisting of 1.5-story or two-story frame or frame and masonry dwellings that are 9 or 20 years old. The dwellings range in size from 1,948 to 2,318 square feet of living area. Each comparable has central air conditioning and a 2-car garage. One comparable has a full unfinished basement and three comparables have a fireplace. These properties have improvement assessments ranging from \$16.02 to \$19.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the eight comparables submitted by both parties have varying degrees of similarity to the subject in design, exterior construction, size and/or features. Five comparables are 1.5-story and three comparables are two-story. Seven comparables are frame and masonry and one comparable is frame constructed. Three comparables are substantially larger than the subject property. Three comparables have full unfinished basements and five comparables do not have basements. The comparables have improvement assessments that ranged from \$10.96 to \$19.78 per square foot of living area. The subject's improvement assessment of \$20.85 per square foot of living area is above the range established by these comparables. However, the Board finds the subject has superior features in comparison to both parties' suggested comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
