

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lisa LeFevre  
DOCKET NO.: 09-30725.001-R-1  
PARCEL NO.: 05-33-100-057-0000

The parties of record before the Property Tax Appeal Board are Lisa LeFevre, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$18,542  
**IMPR.:** \$59,102  
**TOTAL:** \$77,644

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story, single-family dwelling of frame construction containing 2,157 square feet of living area. The dwelling is 47 years old. Features of the home include two full baths and two half baths, a partial, unfinished basement, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described on the grid and an additional three comparables listed on a chart with photographs. A detailed description is not available for the appellant's additional three comparables, #5, #6, and #7. Comparables #1 through #4 are described as two-story frame, masonry/frame or masonry single family dwellings that range in age from 46 to 59 years old. The comparable dwellings range in size from 2,086 to 2,612 square feet of living area. Features include one and a half to two and a half bathrooms and air conditioning except for comp four, and fireplaces for three comparables. The comparables have improvement assessments ranging from \$17.40 to \$28.39 per square foot of living area. The subject's improvement assessment is \$27.40 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$77,644 or \$27.40 was disclosed. The board of review presented descriptions and assessment information on four comparable properties. These comparables consist of the following characteristics: two-story frame, masonry and frame single family dwellings that range in age from 54 to 58 years old. The dwellings range in size from 2,138 to 2,765 square feet of living area. Features include two and a half to three baths, one fireplace, and air conditioning for three of the comparables, and a two car garage. These properties have improvement assessments ranging from \$22.58 to \$31.15 per square foot of living area. The board of review's #2 was also submitted by the appellant as comparable #2. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board considered the comparables submitted by both parties and found that #2 and #3 submitted by the appellant and #1, #2 and #3 by the Board of Review are the most similar to the subject in size, style, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$22.58 to \$31.15 per square foot of living area. The subject's improvement assessment of \$27.40 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
