

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marek Motloch  
DOCKET NO.: 09-31334.001-R-1  
PARCEL NO.: 19-08-423-021-0000

The parties of record before the Property Tax Appeal Board are Marek Motloch, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 4,281  
**IMPR.:** \$ 33,440  
**TOTAL:** \$ 37,721

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property contains 3,892 square feet of land improved with a three-story dwelling of masonry construction containing 4,036 square feet of living area. The dwelling is 11 years old. Features of the home include air conditioning.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as three-story, masonry dwellings that range in age from 10 to 13 years old. The comparable dwellings range in size from 4,680 to 7,995 square feet of living area. One of the comparables is located on the same block as the subject property and the other three properties are located within eight blocks from the property. Features include three to four baths and air conditioning. The comparables have improvement assessments ranging from \$5.62 to \$6.13 per square foot of living area. The subject's improvement assessment is \$8.29 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$37,721 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-story, masonry dwellings that range in age from 9 to 28 years old. Two of the properties are located on the same block as the subject and two are located in the same subarea as the subject property. The dwellings range in size from 3,540 to 4,036 square feet of living area. Features include a partial unfinished basement, air conditioning, and two and two half-baths to three and one half-baths. These properties have improvement assessments ranging from \$8.35 to \$8.83 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparable #4 submitted by the appellant, and #1 and #2 submitted by the board of review, were most similar to the subject in size, location, amenities, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$6.13 to \$8.60 per square foot of living area. The subject's improvement assessment of \$8.29 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barret, 20 Ill.2d. 395 (1960). Although the comparables submitted by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's

Docket No: 09-31334.001-R-1

assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
