

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: P & L Partners, LLC
DOCKET NO.: 09-31403.001-R-1
PARCEL NO.: 17-20-308-039-0000

The parties of record before the Property Tax Appeal Board are P & L Partners, LLC, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,440
IMPR.: \$2,795
TOTAL: \$10,235

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of masonry construction. The dwelling is approximately 121 years old and contains 4,608 square feet of living area. Features include three apartment units and a full unfinished basement. The subject property has a 3,100 square foot site and is located in Chicago, West Chicago Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on June 2, 2009, for a price of \$115,000 or \$24.96 per square foot of living area, land included. The appellant completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller; that the subject's sale was not a transfer between related parties; that a realtor handled the transaction; that the property was advertised for sale using the multiple listing service; and that the seller's mortgage was not assumed. To

further document the sale, the appellant submitted copies of the settlement statement (HUD-1) and the real estate sale contract. Both of these documents disclosed that the subject property was purchased in June 2, 2009 for a price of \$115,000. In a letter that accompanied the appeal, counsel stated the subject had a market value of \$115,000 and the assessment should be calculated by applying the 9.06% median level of assessments for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$10,419.¹

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$29,670 was disclosed. The subject's assessment reflects a market value of \$333,371 or \$72.35 per square foot of living area, land included, using the 2009 three year average median level of assessments for class 2 property in Cook County of 8.90% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four equity comparables, none of which were sales. The board of review also submitted a list of forty properties that sold from September 1990 to April 2008 for prices ranging from \$12,400 to \$480,000. Descriptive data for the sale properties was not provided. This list made no reference to the sale of the subject property on June 2, 2009 for a price of \$115,000. The board of review provided a listing of documents from the Cook County Recorder of Deeds that reflected the subject property's recent history. This list showed that a warranty deed was issued in June 2009; however, a copy of that document was not provided. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney noted that the board of review had not addressed the appellant's market value argument.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

¹ The appellant is relying on a preliminary three year median level of assessment on class 2 property in Cook County for 2009. The final three-year median level of assessment on class 2 property in Cook County for 2009 was 8.90%.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so to do. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the only evidence of market value in the record is the sale of the subject property on June 2, 2009, for a price of \$115,000. The appellant revealed that the subject's sale had many of the elements of an arm's length transaction: The evidence disclosed that the subject's sale was not a transfer between related parties; that a realtor handled the sale; and that the property was exposed to the open market when it was advertised for sale using the multiple listing service. The subject property has an assessment of \$29,670 that reflects a market value of \$333,371. The Board finds the subject's purchase price is less than the market value reflected by the assessment.

The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. Although the board of review submitted four equity comparables, the Board gives no weight to the board of review's equity evidence as it is not responsive to the appellant's overvaluation argument. The Board also gives no

weight to the board of review's listing of sale properties. These sales lacked the descriptive evidence that would have helped to determine how similar they were to the subject property.

Based on this record the Board finds the subject property had a market value of \$115,000 as of January 1, 2009. Since market value has been determined the 2009 three year average median level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 8.90% shall apply. (86 Ill.Admin.Code §1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
