

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Reber
DOCKET NO.: 09-32763.001-R-1
PARCEL NO.: 14-32-211-012-0000

The parties of record before the Property Tax Appeal Board are Ken Reber, the appellant, by attorney Leonard Schiller, of Schiller Klein, PC, in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,620
IMPR.: \$258,825
TOTAL: \$290,445

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story dwelling of masonry construction containing 5,075 square feet of living area. The dwelling was seven years old. Features of the home include a full basement with recreation room finish, central air conditioning, three fireplaces and a 3.5-car attached garage. The property has a 4,216 square foot site and is located in Chicago, North Chicago Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as multi-story dwellings of masonry construction that ranged in size from 5,100 to 5,565 square feet of living area. The dwellings ranged in age from 2 to 13 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a partial or full basement, central air conditioning, from 1 to 3 fireplaces and two-car or three-car garages. Two of the comparables have finished recreation rooms in the basement. The comparables have

improvement assessments ranging from \$208,080 to \$261,499 or from \$40.80 to \$47.99 per square foot of living area. The subject's improvement assessment is \$258,825 or \$51.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$230,455 or \$45.41 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with three-story dwellings of masonry construction that range in size from 5,301 to 5,907 square feet of living area. The dwellings ranged in age from 3 to 15 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement with recreation room finish, central air conditioning, two or three fireplaces and from 1 to 3-car garages. These properties have improvement assessments ranging from \$270,351 to \$329,543 or from \$50.57 to \$60.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable number 4 and board of review comparables numbers 2 and 3 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$47.99 to \$60.75 per square foot of living area. The subject's improvement assessment of \$51.00 per square foot

of living area falls within the range established by the best comparables in this record. The Board gave diminished weight to board of review comparables 1 and 4 and appellant's comparable number 3 due to size disparity when compared to the subject. Appellant's comparables 2 and 3 also lacked a finished basement, had fewer number of fireplaces and comparable three had a 2-car garage compared to the subject's 3.5-car garage. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
