

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Loumeau
DOCKET NO.: 10-02051.001-R-1
PARCEL NO.: 11-03-302-012

The parties of record before the Property Tax Appeal Board are Joseph Loumeau, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$69,187
IMPR: \$169,303
TOTAL: \$238,490

Subject only to the State multiplier as applicable.

ANALYSIS

The subject parcel is improved with a 2-story dwelling of frame construction. The dwelling contains approximately 3,796 square feet of living area and was built in 1987. It features a full, unfinished basement, central air conditioning, one fireplace and a garage containing 864 square feet. The dwelling is located in Libertyville, Libertyville Township, Lake County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2-story dwellings of frame construction. The dwellings were built in 1988 or 1989 and range in size from 3,636 to 4,114 square feet of living area. The comparables feature full unfinished basements, central air conditioning, 1 or 2 fireplaces and garages that range in size from 660 to 909 square feet. The comparables have improvement assessments ranging from \$131,130 to \$173,530 or from \$36.06 to \$42.88 per square foot of living area. The subject has an improvement assessment of \$169,303 or \$44.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In

support of the subject's assessment, the board of review presented descriptions and information on four comparable properties. They consist of 2-story frame dwellings built between 1983 and 1989 and ranging in size from 3,636 to 3,978 square feet of living area. All comparables feature full unfinished basements, central air conditioning, 1 or 2 fireplaces and garages that range in size from 760 to 1,270 square feet. These properties have improvement assessments ranging from \$163,350 to \$178,528 or from \$44.34 to \$45.92 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant cites differences between the subject and the board of review comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds the evidence in the record does not support a reduction in the subject's assessment.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven different comparable properties which were very similar to the subject in location, age, size, style, exterior construction and features. They have improvement assessments ranging from \$131,130 to \$178,528 or from \$36.06 to \$45.92 per square foot of living area. The subject's improvement assessment of \$169,303 or \$44.60 per square foot of living area is within the range established by these comparables. After considering adjustments and differences in both parties' comparables, the Board finds the subject's assessment is equitable and no reduction is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property

Docket No: 10-02051.001-R-1

is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
