

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Boress
DOCKET NO.: 10-02885.001-R-1
PARCEL NO.: 11-08-100-051

The parties of record before the Property Tax Appeal Board are Larry Boress, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,914
IMPR.: \$77,668
TOTAL: \$125,582

Subject only to the State multiplier as applicable.

ANALYSIS

The subject parcel is improved with a 2-story frame condominium townhouse containing approximately 2,154 square feet of living area. The subject dwelling was built in 2005 and features a full unfinished basement, central air conditioning, a fireplace and a garage containing 370 square feet. The dwelling is located in the 1800 block of Torrey Parkway, Libertyville, Libertyville Township, Lake County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties all located in the 1800 block of Torrey Parkway. They are described as 2-story frame townhouse dwellings built in 2004 or 2005. The comparable properties contain either 2,154 or 2,172 square feet of living area and feature full unfinished basements, central air conditioning and garages that contain either 370 or 420 square feet. Two comparables feature fireplaces. The comparables have improvement assessments ranging from \$47,113 to \$73,434 or from \$21.69 to \$34.09 per square foot of living area. The subject has an improvement assessment of \$77,668 or \$36.06 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$73,407 or \$34.08 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal". In support of the subject's assessment, the board of review presented descriptions, a grid analysis and property

record cards for six comparable properties all located in the 1800 block of Torrey Parkway. They were built from 2005 to 2008 and consist of 2-story frame townhouse dwellings containing 2,154 square feet of living area. All comparables feature full unfinished basements, 370 square foot garages and central air conditioning. These properties have improvement assessments of \$77,668 or \$36.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds the evidence in the record does not support a reduction in the subject's assessment.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted nine different comparable properties nearly identical to the subject in age, size, location, style, exterior construction and features. They have improvement assessments ranging from \$47,113 to \$77,668 or from \$21.69 to \$36.06 per square foot of living area. The subject's improvement assessment of \$77,668 or \$36.06 per square foot of living area falls within the range established by these comparables and is identical to six of these comparables. After considering adjustments and differences in both parties' comparables, the Board finds the subject's assessment is equitable and no reduction is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
