

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Greg Riba  
DOCKET NO.: 10-21605.001-R-1  
PARCEL NO.: 14-29-408-049-0000

The parties of record before the Property Tax Appeal Board are Greg Riba, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$20,121  
**IMPR.:** \$69,279  
**TOTAL:** \$89,400

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a three-story concrete block single-family residence containing 4,652 square feet of living area. Features include central air conditioning, two fireplaces and a two-car garage. The building is approximately 19 years old and is located on a 3,125 square foot site.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. In support of this overvaluation argument the appellant submitted an appraisal estimating the subject property had a market value of \$1,000,000 as of January 1, 2009. The appraiser developed both the cost and sales comparison approaches to value in estimating a value for the subject property. Under the cost approach the appraiser utilized the Marshall & Swift Residential Cost Handbook to develop a replacement cost new of \$1,120,680. The appraiser estimated total depreciation of \$188,285 and adding the land value indicated a total depreciated value of the improvements and land of \$1,202,400, rounded.

Under the sales comparison approach to value the appraiser utilized three comparable sales in estimating a value for the subject property. The comparable sales sold from May 2008, through October 2008 for prices that ranged from \$855,000 to \$1,040,000, or from \$110.19 to \$520.71 per square foot of gross building area, land included. After making adjustments to the properties, the appraiser estimated the subject's market value to be \$1,000,000 under the sales comparison approach as of January 1, 2009.

A final reconciliation of the two approaches, giving the most weight to the sales comparison approach, yielded an estimate of value for the subject property of \$1,000,000 as of January 1, 2009.

The appellant also submitted a copy of the final decision issued by the Cook County Board of Review establishing a total assessment for the subject of \$173,172 which reflects a market value of approximately \$1,937,047 using the three-year median level of assessment for Cook County Class 2, residential property as determined by the Illinois Department of Revenue of 8.94% for 2010. Based on this evidence the appellant requested the subject's assessment be reduced to reflect the subject's appraised value.

The board of review did not submit its "Board of Review Notes on Appeal" or any evidence in support of its assessed valuation of the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002). Proof of the market value of the subject property may consist of an appraisal of the subject property, a recent sale of the subject property, or recent sales of suggested comparable properties. (86 Ill.Admin.Code 1910.65(c)(1)). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record is the appraisal submitted by the appellant estimating the subject property had a market value of \$1,000,000 as of January 1, 2009. The Board finds the subject's assessment reflects a market value greater than the appraised value presented by the appellant. The board of review did not submit any evidence in support of its assessment of the subject property or to refute

the appellant's argument as required by section 1910.40(a) of the rules of the Property Tax Appeal Board and is found to be in default pursuant to section 1910.69(a) of the rules of the Property Tax Appeal Board. Based on this record the Property Tax Appeal Board finds the subject property had a market value of \$1,000,000 as of January 1, 2010. Since the market value of the subject has been established, the three-year median level of assessment as established by the Illinois Department of Revenue for Cook County Class 2, residential property of 8.94% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
