

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gordon Gillen
DOCKET NO.: 10-22118.001-R-1
PARCEL NO.: 01-07-301-013-0000

The parties of record before the Property Tax Appeal Board are Gordon Gillen, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,890
IMPR: \$96,474
TOTAL: \$107,364

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 4,594 square feet of living area. The dwelling is approximately 12 years old. Features of the home include a full basement with finished recreation room, central air conditioning, three fireplaces and a three-car attached garage. The property has a 217,800 square foot site and is located in Barrington Hills, Barrington Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of frame and masonry construction that ranged in size from 4,206 to 4,778 square feet of living area. The dwellings ranged in age from 2 to 10 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full or partial basement, central air conditioning, two or three fireplaces and a three or four-car garage. Two of the comparables have finished basement recreation rooms. The

comparables have improvement assessments ranging from \$69,063 to \$103,962 or from \$15.13 to \$21.76 per square foot of living area. The subject's improvement assessment is \$102,443 or \$22.30 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$88,343 or \$19.23 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on two comparable properties improved with two-story dwellings of masonry or frame and masonry construction. The comparables contained 4,105 and 4,206 square feet of living area, respectively. Both dwellings were 10 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement, central air conditioning, two fireplaces and either a three or four-car garage. One comparable had a finished recreation room in the basement. The properties have improvement assessments of \$87,527 and \$87,888 or \$20.81 and \$21.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds appellant's comparable numbers 1 and number 2 and board of review's comparables number 1 and number 2 are the most similar to the subject in location, size, style, exterior construction, features and age. Appellant's comparable number 3 is given diminished weight due to its age of 2 years. Due to their similarities to the subject, the remaining comparables received the most weight in the Board's analysis. These

comparables had improvement assessments that ranged from \$15.13 to \$21.76 per square foot of living area. The subject's improvement assessment of \$22.30 per square foot of living area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
