

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jagbir Ahuja
DOCKET NO.: 10-22133.001-R-1
PARCEL NO.: 01-34-404-020-0000

The parties of record before the Property Tax Appeal Board are Jagbir Ahuja, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$22,903
IMPR.: \$182,158
TOTAL: \$205,061

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 11,618 square feet of living area. The dwelling was 3 years old. Features of the home include a full basement with finished recreation room, central air conditioning, five fireplaces and a four-car attached garage. The property has a 33,286 square foot site and is located in South Barrington, Barrington Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of masonry or frame and masonry construction that ranged in size from 10,918 to 12,625 square feet of living area. Two of the dwellings were 10 years old and two of the dwellings were 18 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement, central air conditioning, from 2 to 6 fireplaces and a four-car attached garage. Two of the comparables have living area in the attic and two comparables have recreation rooms in the basement. The

comparables have improvement assessments ranging from \$138,625 to \$180,285 or from \$12.50 to \$14.28 per square foot of living area. The subject's improvement assessment is \$182,158 or \$15.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$155,681 or \$13.40 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry construction that range in size from 9,917 to 10,788 square feet of living area. The dwellings ranged in age from 10 to 19 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement, central air conditioning, one to four fireplaces and a four-car garage. Two of the comparables have finished recreation rooms in the basement. These properties have improvement assessments ranging from \$159,464 to \$169,155 or from \$15.54 to \$17.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board finds all of the comparables are generally similar to the subject property in location, style, exterior construction, features and size. All of the comparables are older than the subject property. The comparables had improvement assessments that ranged from \$12.50 to \$17.02 per square foot of living

area. The subject's improvement assessment of \$15.68 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments and differences in the comparables when compared to the subject property, the Board finds the subject's improvement assessment is equitable. Therefore, based on this record the Property Tax Appeal Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
