

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alan Barr
DOCKET NO.: 10-22255.001-R-1
PARCEL NO.: 11-19-308-043-0000

The parties of record before the Property Tax Appeal Board are Alan Barr, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,885
IMPR.: \$34,031
TOTAL: \$40,916

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story two-unit dwelling of masonry construction containing 2,484 square feet of living area. The dwelling was 97 years old. Features of the subject property include a full unfinished basement and a two-car detached garage. The property has a 5,508 square foot site and is located in Evanston, Evanston Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of masonry, frame, or stucco construction that ranged in size from 2,414 to 2,743 square feet of living area. The dwellings ranged in age from 55 to 127 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement and from two to three-car garages. One comparable has a finished recreation room in the basement and a fireplace and another comparable has two fireplaces. The comparables have improvement assessments ranging from \$23,818 to \$30,077 or from \$8.68 to \$11.75 per square foot of living area. The subject's

improvement assessment is \$34,031 or \$13.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$26,777 or \$10.78 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry or frame construction that range in size from 2,040 to 2,644 square feet of living area. The dwellings ranged in age from 86 to 117 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full unfinished basement and from 2 to 3.5-car garages. One comparable has central air conditioning. These properties have improvement assessments ranging from \$31,008 to \$38,802 or from \$14.33 to \$15.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board gave diminished weight to appellant's comparables number 2 and 4 and board of review comparable number 4. These three properties are of either frame or stucco exterior construction which differs from the masonry construction of the subject property and are from 17 to 30 years older than the subject property. The Board finds the appellant's comparable number 3 and board of review comparables numbers 1, 2 and 3 are the most similar to the subject in location, size, style, features and age. Due to their similarities to the subject, these

comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$11.68 to \$15.20 per square foot of living area. The subject's improvement assessment of \$13.70 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
