

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul VanDeBerg  
DOCKET NO.: 10-22329.001-R-1  
PARCEL NO.: 01-12-204-010-0000

The parties of record before the Property Tax Appeal Board are Paul VanDeBerg, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,975  
**IMPR.:** \$26,249  
**TOTAL:** \$32,224

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1,483 square feet of living area. The dwelling was 39 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car attached garage. The property has a 21,729 square foot site and is located in Barrington, Barrington Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as one-story dwellings of frame construction that ranged in size from 1,480 to 1,578 square feet of living area. The dwellings ranged in age from 51 to 64 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full or partial unfinished basement, a fireplace and a one or two-car garage. The comparables have improvement assessments ranging from \$24,119 to \$26,778 or from \$15.96 to \$16.97 per square foot of living area. The subject's improvement assessment is \$26,249 or

\$17.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$24,425 or \$16.47 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with 1 or 1.5-story dwellings of frame construction that range in size from 1,323 to 1,650 square feet of living area. The dwellings ranged in age from 22 to 34 years old. Each has the same neighborhood code as the subject property. One comparable has a crawl space foundation and two comparables have full unfinished basements. One comparable has central air conditioning. Two comparables have a two-car garage and one comparable has a three-car garage. These properties have improvement assessments ranging from \$26,967 to \$34,076 or from \$19.56 to \$20.65 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of six comparable properties into the record for the Board's consideration. The Board gave diminished weight in its analysis to appellant's comparables #1 and #2 and board of review comparable #1 due primarily to the age disparities when compared to the subject property. In addition, board of review comparable #1 is constructed over a crawl space foundation whereas the subject property has a full basement. The Board finds the appellant's comparable #3 and board of review comparables #2 and #3 are the

most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$16.97 to \$20.38 per square foot of living area. The subject's improvement assessment of \$17.70 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable. Therefore, the Board finds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
