

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brian Utley  
DOCKET NO.: 10-22366.001-R-1  
PARCEL NO.: 10-12-318-015-0000

The parties of record before the Property Tax Appeal Board are Brian Utley, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$5,933  
IMPR.: \$54,298  
TOTAL: \$60,231**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 2,229 square feet of living area. The dwelling was 71 years old. Features of the home include a full unfinished basement, a fireplace and a two-car attached garage. The property has a 5,050 square foot site and is located in Evanston, Evanston Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of frame or stucco construction that ranged in size from 2,268 to 2,412 square feet of living area. The dwellings ranged in age from 88 to 127 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full unfinished basement and from 1 to 3-car attached garages. Three of the comparables have central air conditioning. Two comparables have a fireplace and one comparable has a partial attic with living area. The comparables have improvement assessments ranging from \$46,425 to \$53,185 or from \$20.41 to \$22.48 per square foot of

living area. The subject's improvement assessment is \$54,298 or \$24.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$47,990 or \$21.53 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with two-story dwellings of masonry construction that range in size from 2,293 to 2,436 square feet of living area. Two of the dwellings were 86 years old and one comparable was 88 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full or partial basement, a fireplace and a one or two-car garage. One comparable has central air conditioning and one comparable has a finished recreation room in the basement. These properties have improvement assessments ranging from \$58,936 to \$66,359 or from \$25.70 to \$28.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Property Tax Appeal Board finds the board of review comparables are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$25.70 to \$28.54 per square foot of living area. The subject's improvement assessment of \$24.36 per square foot of living area falls below the range established by the best comparables in this record.

The Board gave less weight to the appellant's comparables. None of the four suggested comparables have masonry constructed exterior walls like the subject has. Also, comparables #1 and #2 were 29 and 56 years older, respectively, than the subject property.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable. Therefore, the Board finds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
