

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Casey Kozlowski  
DOCKET NO.: 10-22387.001-R-1  
PARCEL NO.: 01-01-402-027-0000

The parties of record before the Property Tax Appeal Board are Casey Kozlowski, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$2,968  
IMPR.: \$54,432  
TOTAL: \$57,400**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 2,692 square feet of living area. The dwelling was 7 years old. Features of the home include a full basement with recreation room finish, central air conditioning, two fireplaces and a two-car attached garage. The property has a 6,250 square foot site and is located in Barrington, Barrington Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of frame or frame and masonry construction that ranged in size from 2,672 to 2,834 square feet of living area. The dwellings ranged in age from 4 to 10 years old. Each comparable has the same neighborhood code as the subject property with one comparable located on the subject's street in the same block as the subject property. Features of the comparables include central air conditioning and a two-car attached garage. Three comparables have full unfinished basements. Two comparables have one fireplace and one

comparable has two fireplaces. The comparables have improvement assessments ranging from \$48,003 to \$53,730 or from \$17.97 to \$19.06 per square foot of living area. The subject's improvement assessment is \$54,432 or \$20.22 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$49,802 or \$18.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of frame construction that range in size from 2,618 to 2,916 square feet of living area. The dwellings ranged in age from 6 to 11 years old. Each has the same neighborhood code as the subject property with one comparable located on the subject's street in the same block as the subject property. Features of the comparables include a full basement, central air conditioning and 2 or 2.5-car garages. Two of the comparables have a finished recreation room in basement. Two comparables have two fireplaces and one comparable has one fireplace. These properties have improvement assessments ranging from \$57,248 to \$60,905 or from \$20.89 to \$22.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board finds all of the suggested comparables are relatively similar to the subject in location, size, style, exterior

construction, features and age with most requiring only minimal adjustments to reflect the subject property. Due to their similarities to the subject, these comparables received equal weight in the Board's analysis. The comparables had improvement assessments that ranged from \$17.97 to \$22.02 per square foot of living area. The subject's improvement assessment of \$20.22 per square foot of living area falls within the range established by the comparables in this record. Based on this record the Property Tax Appeal Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable. Therefore, the Board finds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
