

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arvind Goyal
DOCKET NO.: 10-22398.001-R-1
PARCEL NO.: 01-24-400-004-0000

The parties of record before the Property Tax Appeal Board are Arvind Goyal, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,909
IMPR: \$109,317
TOTAL: \$119,226

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 7,030 square feet of living area. The dwelling was 7 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a four-car attached garage. The property has a 56,628 square foot site and is located in South Barrington, Barrington Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of masonry construction that ranged in size from 6,394 to 7,577 square feet of living area. Two of the dwellings were 15 years old and one comparable was 12 years old. Each comparable has the same neighborhood code as the subject property, with two of the comparables located on the same street as the subject property. Features of the comparables include a full basement, central air conditioning, one or two fireplaces and 3.5 or 4-car attached garages. One comparable has a finished recreation room in the basement. The comparables have improvement assessments ranging from \$101,984 to \$116,925 or from \$15.29 to \$15.95 per square foot of living

area. The subject's improvement assessment is \$121,830 or \$17.33 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$109,317 or \$15.55 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with two-story dwellings of masonry construction that range in size from 5,448 to 6,027 square feet of living area. The dwellings ranged in age from 11 to 17 years old. Each has the same neighborhood code as the subject property. Two of the comparables are located on the same street as the subject property. Features of the comparables include a full basement, central air conditioning, two fireplaces and 3 or 4-car garages. Two comparables have finished recreation rooms in the basement. These properties have improvement assessments ranging from \$95,024 to \$109,993 or from \$17.44 to \$18.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has met this burden.

The parties to the appeal submitted a total of six comparable properties into the record for the Board's consideration. The Board gave little weight to the board of review's three comparables. These comparables were considerably smaller than the subject property.

The Board finds the appellant's comparables are the most similar to the subject in location, size, style, exterior construction,

features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.29 to \$15.95 per square foot of living area. The subject's improvement assessment of \$17.33 per square foot of living area is above the range established by the best comparables in this record.

Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
