

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

PELLANT: Barbara Keck
DOCKET NO.: 10-22594.001-R-1
PARCEL NO.: 14-29-305-028-0000

The parties of record before the Property Tax Appeal Board are Barbara Keck, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,840
IMPR.: \$ 63,999
TOTAL: \$ 83,839

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 3,100 square feet of land and is improved with two multi-family dwellings. The first improvement is a 116 year old, two-story, frame building. It contains 1,920 square feet of building area and has an improvement assessment of \$20.00 per square foot of building area. The second improvement is also a 116 year old, two-story, frame building. It contains 1,280 square feet of living area and has an improvement assessment of \$20.00 per square foot of building area. The appellant argued that there was unequal treatment in the assessment process of the subject's improvements as the basis of this appeal.

With regard to the 1,920 square foot improvement, in support of the equity argument, the appellant submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as masonry, multi-family dwellings. The comparables range: in age from 99 to 123 years; in size from 2,232 to 3,101 square feet of living area; and in improvement assessment from \$6.36 to \$13.69 per square foot of living area. The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

With regard to the 1,280 square foot building, in support of the equity argument, the appellant submitted descriptive and

assessment information for three properties suggested as comparable to the subject. The comparables are described as masonry, or frame and masonry, multi-family dwellings. The comparables range: in age from 116 to 121 years; in size from 1,520 to 4,188 square feet of living area; and in improvement assessment from \$2.69 to \$15.95 per square foot of living area. The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the 1,920 square foot improvement's assessment of \$38,399 and the 1,280 square foot improvement's assessment of \$25,600 were disclosed. In support of the 1,920 square foot improvement's assessment, the board of review submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as two-story, frame, multi-family dwellings. The comparables range: in age from 116 to 121 years; in size from 1,904 to 2,200 square feet of living area; and in improvement assessment from \$22.20 to \$25.62 per square foot of living area. The comparables also have several amenities.

In support of the 1,280 square foot improvement's assessment, the board of review submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as two-story, frame, or masonry, multi-family dwellings. The comparables range: in age from 121 to 131 years; in size from 1,662 to 1,848 square feet of living area; and in improvement assessment from \$21.84 to \$28.13 per square foot of living area. The comparables also have several amenities. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. *Walsh v. Prop. Tax Appeal Bd.*, 181 Ill. 2d 228, 234 (1998) (citing *Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd.*, 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." *Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd.*, 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." *Cook Cnty. Bd. of Review v. Prop. Tax*

Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board finds that, with regard to the 1,920 square foot improvement, Comparables #1, and #2 submitted by the appellant, and Comparables #1, #2, and #3 submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$6.36 to \$24.17 per square foot of living area. The subject's improvement assessment of \$20.00 per square foot of living area is within the range established by the most similar comparables.

With regard to the 1,280 square foot improvement, Comparables #1 and #3 submitted by the appellant, and Comparable #2 submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$2.69 to \$28.13 per square foot of living area. The subject's improvement assessment of \$20.00 per square foot of living area is within the range established by the most similar comparables.

Therefore, after considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds that the subject's improvement assessments are equitable, and a reduction in the assessments are not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
