

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stefan Toporkiewicz
DOCKET NO.: 10-23206.001-R-1
PARCEL NO.: 18-34-403-044-0000

The parties of record before the Property Tax Appeal Board are Stefan Toporkiewicz, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,319
IMPR.: \$34,304
TOTAL: \$37,623

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a parcel of land improved with a four-year old, two-story, masonry and masonry, single-family dwelling. The appellant argued that the fair market value of the subject was not accurately reflected in its assessed value as the basis of the appeal.

In support of the market value argument, the appellant submitted an appraisal undertaken by James E. Sloan of Accurate Services Inc. The report indicates Sloan is a State of Illinois certified residential appraiser. The appraiser indicated an estimated market value of \$372,500 as tax year 2010. The appraisal report utilized the sales comparison approach to value to estimate the market value for the subject property.

In summarizing the subject property, the appraisal describes the subject's lot size as 10,234 square feet and the improvement as a two-story, frame and masonry dwelling containing 2,961 square feet of living area. The appraisal indicates the property was personally inspected on March 14, 2011. The appraisal found the subject's highest and best use to be its present use.

Under the sales comparison approach, the appraiser analyzed the sales of six properties described as two-story, frame and masonry, single-family dwellings located within the subject's market. The properties contain between 2,021 and 4,138 square feet of living area and sold from February 2009 to October 2010 for prices ranging from \$289,000 to \$405,000 or \$84.22 to \$147.87 per square foot of living area, including land. The appraiser adjusted each of the comparables for pertinent factors. Based on the similarities and differences of the comparables when compared to the subject, the appraiser estimated a value for the subject under the sales comparison approach of \$372,500.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$43,955 was disclosed. The subject's final assessment reflects a fair market value of \$435,198 when the Illinois Department of Revenue's 2010 three-year median level of assessment of 10.10% for Cook County Class 2 properties is applied.

In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable. The properties are described as two-story, masonry or frame and masonry, single-family dwellings. The subject is described as containing 10,215 square feet of land with a two-story, frame and masonry dwelling containing 2,964 square feet of living area. The suggested comparables range: in age from two to seven years; in size from 2,611 to 2,964 square feet of living area; and in improvement assessments from \$14.84 to \$15.36 per square foot of living area. One property sold in February 2007 for \$499,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the market value evidence presented, the PTAB concludes that this evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized sales comparison approach to value in determining the subject's market value. The PTAB finds this

appraisal to be persuasive for the appraisers: has experience in appraising; personally inspected the subject property and reviewed the property's history; and used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The PTAB gives little weight to the board of review's evidence as the documentation is merely assessment or raw sales data.

Therefore, the PTAB finds the subject had a market value of \$372,500 for the 2010 assessment year. Since the market value of this parcel has been established, the Illinois Department of Revenue's 2010 three-year median level of assessment of 10.10% for Cook County Class 2 properties will apply. In applying this level of assessment to the subject, the total assessed value is \$37,623 while the subject's current total assessed value is above this amount. Therefore, the PTAB finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
