

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sal Melilli
DOCKET NO.: 10-23278.001-R-1
PARCEL NO.: 18-06-120-032-0000

The parties of record before the Property Tax Appeal Board are Sal Melilli, the appellant(s), by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,468
IMPR.: \$ 79,178
TOTAL: \$ 85,646

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 9,240 square feet of land, which is improved with a seven year old, two-story, frame, single-family dwelling. The subject's improvement size is 3,599 square feet of living area, which equates to an improvement assessment of \$22.00 per square foot of living area. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as two-story, frame or masonry, single-family dwellings. Additionally, the comparables range: in age from 10 to 24 years; in size from 2,913 to 3,724 square feet of living area; and in improvement assessments from \$17.64 to \$21.85 per square foot of living area. The comparables also have various

amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's improvement assessment of \$79,178 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as two-story, frame or frame and masonry, single-family dwellings. Additionally, the comparables range: in age from one to nine years; in size from 3,706 to 3,778 square feet of living area; and in improvement assessments from \$22.23 to \$26.33 per square foot of living area. The comparables also have several amenities. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board finds that Comparables #3, and #4 submitted by the appellant, and Comparables #2, and #4 submitted by the board of

review were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.06 to \$26.33 per square foot of living area. The subject's improvement assessment of \$22.00 per square foot of living area is within the range established by the most similar comparables.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d. 395, 401 (1960). Although the comparables submitted by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
