

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anila Siddique
DOCKET NO.: 10-24384.001-R-1
PARCEL NO.: 10-17-216-016-0000

The parties of record before the Property Tax Appeal Board are Anila Siddique, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,690
IMPR.: \$26,463
TOTAL: \$32,153

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 54 years old and contains 1,951 square feet of living area. Features of the home include a partial finished basement, central air conditioning, and a two-car garage. The subject property has a 7,587 square foot site and is located in Morton Grove, Niles Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on November 16, 2009 for a price of \$280,000 or \$143.52 per square foot of living area, land included. The appellant partially completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller and that the subject's sale was not a transfer between related parties. The appellant did not indicate if the subject property had ever been exposed to the open market. To further document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing

the subject property was purchased in 2009 for a price of \$280,000. On the transfer declaration, question #7 ("Was the property advertised for sale?") was marked "YES". In a letter that accompanied the appeal, counsel stated the subject had a market value of \$280,000 and the assessment should be calculated by applying the 10% ordinance level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$28,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$32,153 was disclosed. The subject's assessment reflects a market value of \$359,653 or \$184.34 per square foot of living area, land included, using the 2010 three year average median level of assessments for class 2 property in Cook County of 8.94% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four comparable sale properties that are improved with two-story dwellings of frame or frame and masonry construction. The dwellings range in age from 39 to 62 years and contain from 1,240 to 1,865 square feet of living area. The comparables have the same assigned neighborhood code as the subject. Three comparables have basements; three comparables have central air conditioning; and three comparables have garages. The comparables have sites ranging in size from 3,349 to 6,600 square feet of land area. The comparables sold from January 2009 to September 2010 for prices that ranged from \$270,000 to \$324,000 or from \$173.73 to \$221.66 per square foot of living area, land included.

In addition, Nicholas Jordan, a board of review analyst, submitted a brief challenging the arm's length nature of the subject's sale. The board of review analyst submitted evidence that indicated the November 2009 sale of the subject property was a compulsory sale due to foreclosure. This evidence consisted of a print-out from the Cook County Recorder of Deeds' website and a notice of foreclosure dated May 27, 2008 from the Cook County Circuit Court. The evidence revealed that the subject had been a distressed property long before it was sold in May 2009. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant has not met this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gives little weight to the November 2009 sale of the subject property. The appellant failed to disclose if the subject property had been exposed to the open market. Furthermore, the board of review challenged the arm's length nature of the subject's sale which was not refuted by the appellant.

The Board finds the comparable sales submitted by the board of review had unit prices ranging from \$173.73 to \$221.66 per square foot of living area, land included. The subject's assessment reflects a market value of \$184.34 per square foot of living area, land included. The comparable sales submitted by the board of review support the subject's assessment.

Based on the evidence contained in the record, the Board finds the appellant has not shown by a preponderance of the evidence that the subject is overvalued and no change in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
