

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Judith Renick  
DOCKET NO.: 10-24399.001-R-1  
PARCEL NO.: 18-05-211-011-0000

The parties of record before the Property Tax Appeal Board are Judith Renick, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,857  
**IMPR.:** \$49,304  
**TOTAL:** \$54,161

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 2,236 square feet of living area. The dwelling was 88 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a two-car detached garage. The property has a 6,700 square foot site and is located in La Grange, Lyons Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties<sup>1</sup> described as two-story dwellings of stucco, frame, or frame and masonry construction that ranged in size from 2,218 to 2,337 square feet of living area. The dwellings ranged in age from 84 to 87 years old. Each comparable has the same neighborhood code

<sup>1</sup> Comparable number four appears to be the subject property. The address, parcel identification number, all characteristics and the assessment are listed as being exactly the same as listed for the subject property. The Board will not consider the subject as a comparable in its analysis.

as the subject property. Features of the comparables include a full or partial basement and a fireplace. Two of the comparables have central air conditioning and two have a two-car garage. One comparable has a finished recreation room in the basement. The comparables have improvement assessments ranging from \$35,690 to \$46,955 or from \$15.27 to \$21.17 per square foot of living area. The subject's improvement assessment is \$49,304 or \$22.05 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$42,506 or \$19.01 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of frame or stucco construction that range in size from 2,038 to 2,255 square feet of living area. The dwellings ranged in age from 81 to 95 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full or partial basement, central air conditioning and one or two fireplaces. One comparable has a 2-car garage and one comparable has a 2.5-car garage. These properties have improvement assessments ranging from \$45,712 to \$55,494 or from \$22.43 to \$26.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #2 and #3 and board of review comparables #1 and #4 are the most similar to the

subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.57 to \$24.90 per square foot of living area. The subject's improvement assessment of \$22.05 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Property Tax Appeal Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
