

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thanh Lu
DOCKET NO.: 10-24429.001-R-1
PARCEL NO.: 09-13-209-014-0000

The parties of record before the Property Tax Appeal Board are Thanh Lu, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,455
IMPR.: \$21,597
TOTAL: \$26,052

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction. The dwelling is approximately 56 years old and contains 1,087 square feet of living area. Features of the home include a concrete slab foundation and a one-car garage. The subject property has a 6,600 square foot site and is located in Morton Grove, Maine Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on December 29, 2010 for a price of \$139,000 or \$127.87 per square foot of living area, land included. The appellant completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller; that the subject's sale was not a transfer between related parties; that a realtor handled the transaction; that the property was advertised for sale using the multiple listing service; and that the seller's mortgage was not assumed. To further document the sale, the appellant submitted a copy of the

Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in December 2010 for a price of \$138,900. On the transfer declaration, question #7 ("Was the property advertised for sale?") was marked "YES". The appellant also produced an affidavit wherein the appellant stated that he had used the services of a real estate broker. In a letter that accompanied the appeal, counsel stated the subject had a market value of \$139,000 and the assessment should be calculated by applying the 10% ordinance level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$13,900.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$26,052 was disclosed. The subject's assessment reflects a market value of \$291,409 or \$268.09 per square foot of living area, land included, using the 2010 three year average median level of assessments for class 2 property in Cook County of 8.94% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four comparables that sold from March to October 2009 for prices that ranged from \$260,000 to \$345,000 or from \$244.82 to \$331.09 per square foot of living area, land included. These comparables are improved with one-story masonry dwellings that range in age from 53 to 56 years. The dwellings contain from 1,042 to 1,152 square feet of living area. Each comparable has a garage and a full basement, three of which are finished. Two comparables have central air conditioning. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the

property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so to do. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant has not met this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value in the record is the sale of the board of review's comparables that occurred from March to October 2009. The Board gives more weight to the board of review comparables because they sold more proximate in time to the January 1, 2010 assessment date. The Board gives less weight to the December 29, 2010 sale of the subject property because it sold nearly a year after the assessment date at issue. The board of review comparables sold for prices that ranged from \$260,000 to \$345,000 or from \$244.82 to \$331.09 per square foot of living area, land included. The subject property has an assessment of \$26,052 that reflects a market value of \$291,409 or \$268.09 per square foot of living area, land included, using the 2010 three year average median level of assessments for class 2 property in Cook County of 8.94% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)). The Board finds the subject's assessment reflects a market value that falls within the range established by the best sales in the record. Based on this record, the Board finds no change in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
