

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William & Nancy Bromley
DOCKET NO.: 10-24455.001-R-1
PARCEL NO.: 10-18-210-032-0000

The parties of record before the Property Tax Appeal Board are William & Nancy Bromley, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,798
IMPR.: \$54,886
TOTAL: \$64,684

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,388 square feet of living area. The dwelling was 12 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car attached garage. The property has an 8,710 square foot site and is located in Morton Grove, Niles Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of masonry, stucco, or frame and masonry construction that ranged in size from 3,100 to 3,436 square feet of living area. The dwellings ranged in age from 14 to 33 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full or partial unfinished basement, central air conditioning and a two-car attached garage. Three of the comparables have a fireplace. The comparables have improvement assessments ranging from \$38,595 to \$45,206 or from \$11.80 to \$13.85 per square foot

of living area. The subject's improvement assessment is \$54,886 or \$16.20 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$43,807 or \$12.93 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry or frame and masonry construction that range in size from 3,198 to 3,388 square feet of living area. Three of the dwellings were 13 years old and one comparable was 11 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full unfinished basement, central air conditioning and either a two or three-car garage. Three of the comparables have a fireplace. These properties have improvement assessments ranging from \$52,364 to \$54,616 or from \$16.30 to \$16.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board finds the appellant's comparables #3 and #4 and board of review comparables #1, #2, #3, and #4 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that

ranged from \$13.61 to \$16.37 per square foot of living area. The subject's improvement assessment of \$16.20 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
