

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alejandro Ayala
DOCKET NO.: 10-24565.001-R-1
PARCEL NO.: 13-30-222-048-0000

The parties of record before the Property Tax Appeal Board are Alejandro Ayala, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,266
IMPR.: \$17,978
TOTAL: \$23,244

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of 3,762 square feet of land improved with two buildings. The main improvement is an 89-year old, two-story, masonry, single-family dwelling. The appellant argues that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

In support of the market value argument, the appellant submitted a residential appraisal summary report of the subject property with an effective date of August 11, 2011. The appraiser estimated a market value for the subject of \$260,000, based upon the cost, income, and sales comparison approaches to value. This appraisal describes the subject as containing two improvements with the main improvement containing 2,41 square feet of living area. Based upon this evidence, the appellant requests a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$43,846. The subject's assessment reflects a market value of \$490,447 using the Illinois

Department of Revenue's three-year median level of assessment for class 2, residential property of 8.94% for tax year 2010. The board of review lists the subject as having two improvements with the main improvement containing 2,041 square feet of living area.

In addition, the board of review submitted descriptive and assessment data on four properties suggested comparable to the main improvement. These properties are described as two-story, masonry, multi-family dwellings with between 1,788 and 2,322 square feet of living area. They sold from May to October 2009 for prices ranging from \$293,000 to \$500,000 or from \$163.87 to \$231.91 per square foot of living area. The board also submitted for suggested comparables for the second improvement. These properties are described as one-story, masonry or frame, single-family dwellings containing between 649 and 921 square feet of living area. These properties sold between February and December 2009 for prices ranging from \$195,000 to \$270,000 or from \$282.61 to \$365.50 per square foot of living area. The Based upon this evidence, the board requested confirmation of the subject's assessment.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

In determining the fair market value of the subject property, the Board thoroughly considered the parties' evidence and finds the best evidence to be the appellant's appraisal. The Board finds this appraisal to be persuasive for the appraiser inspected the subject property and developed the three traditional approaches to value in estimating the subject's market value. Moreover, market data was used to obtain improved sale comparables while providing sufficient detail regarding each sale as well as appropriate adjustments, where necessary. The Board gives less weight to the board of review's evidence as the data is unadjusted sales information.

Therefore, the Board finds that the subject property contained a market value of \$260,000 for tax year 2010. Since the market value of the subject has been established, the median level of assessment as determined by the Illinois Department of Revenue's 2010 three-year median level of assessments for class 2,

residential property of 8.94% will apply. Therefore, the Board finds that a reduction is warranted for market value which then makes the subject equitably assessed.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
