

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Sutherland
DOCKET NO.: 10-28619.001-R-1
PARCEL NO.: 05-20-205-003-0000

The parties of record before the Property Tax Appeal Board are Mary Sutherland, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,791
IMPR: \$104,000
TOTAL: \$117,791

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction. The dwelling is approximately 15 years old and contains 3,630 square feet of living area. Features of the home include a partial finished basement, central air conditioning, a fireplace, and a two-car garage. The subject property has a 9,350 square foot site and is located in Winnetka, New Trier Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame, stucco, or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject and are described as being located a "few blocks" from the subject. The comparable dwellings are from 10 to 19 years old and contain from 3,366 to 3,675 square feet of living area. One comparable has a partial finished basement, and three comparables have unfinished basements, either full or partial. Each comparable has central air conditioning, a fireplace, and a garage. The

comparables have improvement assessments ranging from \$91,555 to \$99,519 or from \$27.00 to \$27.20 per square foot of living area. The subject's improvement assessment is \$104,000 or \$28.65 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$98,337 or \$27.09 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$117,791 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of frame or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and two comparables are described as being located one-quarter mile from the subject. The dwellings are either 15 or 16 years old and contain from 3,350 to 3,639 square feet of living area. Each comparable has an unfinished basement, either full or partial, central air conditioning, one or two fireplaces, and a garage. These properties have improvement assessments ranging from \$94,135 to \$104,152 or from \$28.10 to \$28.92 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. Although all of the comparables submitted were very similar to the subject in age, location, design, living area, and most features, the Board finds that the board of review comparables were nearly identical to the subject in age and that the board of review's comparable #3 was most similar to the subject in living area. Due to their similarities to the subject, the comparables submitted by the

board of review received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$94,135 to \$104,152 or from \$28.10 to \$28.92 per square foot of living area. The subject's improvement assessment of \$104,000 or \$28.65 per square foot of living area falls within the range established by the best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
